### Palmer Square SSI Alternative Income Fund

#### March 2018

The Palmer Square SSI Alternative Income Fund ("PSCIX/PSCAX" or the "Fund") seeks absolute returns by employing an alternative income strategy focused around convertible bonds. PSCIX returned 3.28% (net of fees) for the one year period from 4/1/2017 to 3/31/2018. Recent performance versus the Fund's benchmark is listed below:

#### **PSCIX Performance Net of Fees** (inception 5/25/2012)

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	YTD
2018	0.30%	0.20%	0.00%										0.50%

Fund Performance Net of Fees	Q1 2018	1 Year	3 Years	5 Years	Since Incept Annualized
PSCIX	0.50%	3.28%	2.45%	1.54%	2.03%
PSCAX	0.40%	2.99%	2.17%	1.27%	1.80%
Maximum Sales Load (A Share)	-5.37%	-2.89%	0.16%	0.09%	0.77%
FTSE 3-Month Treasury Bill Index	0.35%	1.07%	0.49%	0.31%	0.28%

Class I shares – Annual Expense Ratio: Gross 2.07%/Net 2.07%. Class A shares – Annual Expense Ratio: Gross 2.32%/Net 2.32%/Maximum Sales Load 5.75%. The Fund's advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that total annual fund operating expenses (excluding acquired fund fees and expenses, interest, taxes, dividends and interest expenses on short positions, brokerage commissions and extraordinary expenses such as litigation expenses) do not exceed 1.74% and 1.49% of the average daily net assets of the Fund's Class A shares and Class I shares, respectively. This agreement is effective until July 31, 2018, and it may be terminated before that date only by Trust's Board of Trustees. The performance data quoted here represents past performance. The Fund's advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period of three years from the date of the waiver or payment. The performance data quoted represents past performance and that past performance does not guarantee future results. Investment return and principal value will fluctuate, so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance information quoted. A portion of the fees charged is waived. Performance prior to waiving fees was lower than the actual returns. The performance data for the Class A share reflects payment of the 5.75% maximum sales charge at the beginning of the stated periods. To obtain performance information current to the most recent month-end please call 866-933-9033.

#### **Economy**

Credit markets had a solid 2017 with spreads at historically low levels. The convertible market remained healthy as evidenced by over \$37 billion in new issuance in 2017. Index volatility is at historically low levels; however, the investment team believes there has been significant individual security volatility and opportunity. Equity markets began 2018 with a strong January, bolstered by strong corporate earnings. Inflation concerns and higher interest rates then spooked investors, leading to higher volatility and weak equity markets in February and March. In addition, concerns around more restrictive trade policy weighed on markets late in the quarter. Equity markets were down during the first quarter, as the S&P 500 posted its first quarterly decline (-0.76%) since the third quarter of 2015. Additionally, U.S. fixed income markets also declined, with the Bloomberg Barclays U.S. Intermediate Treasury Index down -0.75% and the Bloomberg Barclays U.S. Aggregate Bond Index down -1.46%. The yield on the 10-Year U.S. Treasury rose 55 basis points to 2.95% in late February, before pulling back to 2.74% at quarter end.

After spending most of 2017 at historically low levels, the VIX Index (volatility) rose substantially from a low of 9 in January to a high of 37 in February. The investment team views this as positive in that volatility has the potential to open opportunities in which the Fund can

capitalize. More specifically, the increase in market volatility affords the investment team the potential to generate trading gains through the rebalancing of hedges. Credit markets held up relatively well with spreads widening only modestly. U.S. economic activity remains solid with GDP rising about 2.9% in the fourth quarter of 2017 and expectations in the 2% range for the seasonally weak first quarter of 2018. As the first quarter progressed, global economic data became more mixed. As expected, the Fed raised rates in March, and we believe there will be additional increases later this year.

#### Q1 Portfolio Recap and Strategy

As a recap, convertibles performed well in what was a rising interest rate environment. New issuance in the convertible bond market was strong with 35 deals totaling about \$12.4 Billion. The increase in interest rates and modest widening of credit spreads were negatives for long convertible bonds, but those negatives were mostly offset by the increase in volatility. The investment team believes the volatility in the equity and credit markets will continue and favor the Fund. The income component of the convertible bonds was an important driver of the return as the static yield annualized at over 3%. Favorable FDA actions benefited several holdings in Health Care, while concerns about deteriorating business trends hurt holdings in Industrials and Finance. The Fund returns were steady in spite of the rapidly changing conditions in the equity market.

#### **Outlook**

While the investment environment for equities may have deteriorated over the last few months, strong earnings growth and a solid economic backdrop keep the investment team constructive on the stock market. Volatility has risen significantly, and may likely continue given higher rates, less accommodative central bank policies, and geopolitical uncertainty. Despite the upward bias in interest rates being a negative for most fixed income investments, historically, rising rates may serve as a positive for convertibles. New issuance of convertibles is off to a strong start, and is expected to remain healthy as the year progresses. We believe the convertible market is healthy with attractive yields and reasonable valuations. While the S&P 500 was down for the quarter, convertible bonds and the underlying equities generated positive returns.

As a component of an investor's fixed income allocation, the Fund seeks to provide investors with income and absolute returns. As the equity and bond markets experience volatility, we believe the Fund has the potential to provide lower correlations and provide a diversifying income allocation.

Thank you for your continued investment. Please do not hesitate to contact us at investorrelations@ palmersquarecap.com or 816-994-3200 should you desire more information. We would also be happy to set up a call and/or meeting at your convenience.

#### **Notes and Disclosure**

**Average Conversion Premium** - The average amount by which the price of a convertible security exceeds the current market value of the common stock into which it may be converted. Average Hedge Ratio - The average of a ratio of the value of the proportion of a position that is hedged to the value of the entire position. A hedge ratio shows how exposed an investment is to risk. Average Percentage Below Theoretical (Fair) Value – The average percentage below the calculated price at which a

FTSE 3-Month T-Bill Index - This index measures monthly return equivalents of yield averages that are not marked to market. The Three-Month Treasury Bill Indexes consist of the last three three-month Treasury bill issues. 5&P 500 - An unmanaged capitalizationweighted index (weighted by the market value of the companies) of 500 stocks listed on various exchanges. It is not possible to invest directly in an index.

This report is limited to the dissemination of general information pertaining to Palmer Square Capital Management's services and general economic market conditions. The information contained herein is not intended to be personal legal or investment advice or a solicitation to buy or sell any security or engage in a particular investment strategy. Nothing herein should be relied upon as such. The views expressed are for informational purposes only and do not take into account any individual personal, financial, or tax considerations. There is no guarantee that any claims made will come to pass.

Past performance does not guarantee future results. Funds seeking absolute return are not designed to outperform stocks and bonds in strong markets. Asset allocation decisions may not always be correct and may adversely affect Fund performance.

The value of a convertible security is influenced by changes in interest rates, with investment value declining as interest rates increase and increasing as interest rates decline. The credit standing of the issuer and other factors also may have an effect on a convertible security's investment value. Debt securities have interest rate, inflation and credit risks and are subject to prepayment and default risk. High yield and junk securities involve greater risk and tend to be more sensitive to economic conditions and credit risk. Short sales may be considered speculative and it may be difficult to purchase securities to meet delivery obligations. The use of leverage can magnify the changes in the Fund's value and make the fund more volatile. Foreign and US currencies may unfavorably fluctuate in value relative to each other. Distressed securities are typically unrated, lower-rated, in default or close to default and the prices may be extremely volatile, more likely to become worthless and the Fund may lose all of its investment.

Foreign investments present additional risk due to currency fluctuations, economic and political factors, government regulations, differences in accounting standards and other factors. Investments in emerging markets involve even greater risks. Small, mid and large cap stocks are subject to substantial risks such as market, business, size volatility, management experience, product diversification, financial resource, competitive strength, liquidity, and potential to fall out of favor that may cause their prices to fluctuate over time, sometimes rapidly and unpredictably. The Fund is actively managed and may experience high turnover. This may cause higher fees, expenses and taxes, which could detract from Fund performance.

Please read the disclosure statement carefully before you invest or send money.

### Palmer Square SSI Alternative Income Fund FUND PERFORMANCE at March 31, 2018 (Unaudited)

This graph compares a hypothetical \$1,000,000 investment in the Fund's Class I shares, made at its inception, with a similar investment in the FTSE 3-Month T-Bill Index. The performance graph above is shown for the Fund's Class I shares, Class A shares performance may vary. Results include the reinvestment of all dividends and capital gains.

The FTSE 3-Month T-Bill Index (formerly known as Citigroup 3-Month T-Bill Index) measures monthly return equivalents of yield averages that are not marked to market. The index does not reflect expenses, fees or sales charge, which would lower performance. The index is unmanaged and it is not available for investment.

				Since	Inception
Average Annual Total Returns as of March 31, 2018	1 Year	3 Years	5 Years	Inception	Date
Before deducting maximum sales charge

 $<sup>^{\</sup>rm 1}\,$  Class I shares do not have any initial or deferred sales charge.

The performance data quoted here represents past performance and past performance is not a guarantee of future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance information quoted the most recent month end performance may be obtained by calling (866) 933-9033.

<sup>&</sup>lt;sup>2</sup> Maximum sales charge for Class A shares is 5.75%. No deferred sales charge will be imposed on any purchases.

### Palmer Square SSI Alternative Income Fund FUND PERFORMANCE at March 31, 2018 (Unaudited) - Continued

Gross and net expense ratios for Class A shares were 2.32% and 2.32%, respectively, and for Class I shares were 2.07% and 2.07%, respectively, which were the amounts stated in the current prospectus dated August 1, 2017. For the Fund's current one year expense ratios, please refer to the Financial Highlights section of this report. The Fund's Advisor and Sub-Advisor have contractually agreed to waive their fees and/or pay for expenses of the Fund to ensure that total annual fund operating expenses do not exceed 1.74% and 1.49% of the average daily net assets of the Fund's Class A shares and Class I shares, respectively. This agreement is effective until July 31, 2018, and it may be terminated before that date only by the Trust's Board of Trustees. In the absence of such waivers, the Fund's returns would have been lower.

Returns reflect the reinvestment of distributions made by the Fund, if any. The graph and the performance table above do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

#### Note 1 - Organization

Palmer Square SSI Alternative Income Fund (the "Fund") was organized as a non-diversified series of Investment Managers Series Trust, a Delaware statutory trust (the "Trust") which is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund's primary investment objective is to seek income and absolute return. The Fund commenced investment operations on May 25, 2012, with two classes of shares, Class A and Class I.

The Fund commenced operations on May 25, 2012, prior to which its only activity was the receipt of a \$2,500 investment from principals of the Fund's advisor and a \$159,793,680 transfer of Class I shares of the Fund in exchange for the net assets of the SSI Hedged Convertible Income Fund, L.P., a California limited partnership (the "Partnership"). This exchange was nontaxable, whereby the Fund issued 15,979,368 shares for the net assets of the Partnership on May 29, 2012. Cash and the investment portfolio of the Partnership with a fair value of \$130,118,269 on long securities and \$69,056,585 on short sales (identified cost of investment transferred were \$122,651,515 on long securities and \$67,457,372 on short sales) were the primary assets received by the Fund. For financial reporting purposes, assets received and shares issued by the Fund were recorded at fair value; however, the cost basis of the investments received from the Partnership was carried forward to align ongoing reporting of the Fund's realized and unrealized gains and losses with amount distributable to shareholders for tax purposes.

The shares of each class represent an interest in the same portfolio of investments of the Fund and have equal rights as to voting, redemptions, dividends and liquidation, subject to the approval of the Trustees. Income, expenses (other than expenses attributable to a specific class) and realized and unrealized gains and losses on investments are allocated to each class of shares in proportion to their relative shares outstanding. Shareholders of a class that bears distribution and service expenses under the terms of a distribution plan have exclusive voting rights to that distribution plan.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 "Financial Services—Investment Companies".

#### Note 2 – Accounting Policies

The following is a summary of the significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

#### (a) Valuation of Investments

The Fund values equity securities at the last reported sale price on the principal exchange or in the principal over the counter ("OTC") market in which such securities are traded, as of the close of regular trading on the NYSE on the day the securities are being valued or, if the last-quoted sales price is not readily available, the securities will be valued at the last bid or the mean between the last available bid and ask price. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price ("NOCP"). Investments in an open-end investment companies are valued at the daily closing net asset value of the respective investment company. Debt securities are valued by utilizing a price supplied by independent pricing service providers. The independent pricing service providers may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. These models generally consider such factors as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions. If a price is not readily available for a portfolio security, the security will be valued at fair value (the amount which the Fund might

reasonably expect to receive for the security upon its current sale) as determined in good faith by the Fund's advisor, subject to review and approval by the Valuation Committee, pursuant to procedures adopted by the Board of Trustees. The actions of the Valuation Committee are subsequently reviewed by the Board at its next regularly scheduled board meeting. The Valuation Committee meets as needed. The Valuation Committee is comprised of all the Trustees, but action may be taken by any one of the Trustees.

#### (b) Foreign Currency Translation

The Fund's records are maintained in U.S. dollars. The value of securities, currencies and other assets and liabilities denominated in currencies other than U.S. dollars are translated into U.S. dollars based upon foreign exchange rates prevailing at the end of the reporting period. The currencies are translated into U.S. dollars by using the exchange rates quoted as of 4:00 PM Eastern Standard Time. Purchases and sales of investment securities, income and expenses are translated on the respective dates of such transactions.

The Fund does not isolate that portion of its net realized and unrealized gains and losses on investments resulting from changes in foreign exchange rates from the impact arising from changes in market prices. Such fluctuations are included with net realized and unrealized gain or loss from investments and foreign currency.

Net realized foreign currency transaction gains and losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the differences between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign currency translation gains and losses arise from changes in the value of assets and liabilities, other than investments in securities, resulting from changes in the exchange rates.

#### (c) Forward Foreign Currency Exchange Contracts

The Fund may utilize forward foreign currency exchange contracts ("forward contracts") under which it is obligated to exchange currencies on specified future dates at specified rates, and are subject to the translations of foreign exchange rates fluctuations. All contracts are "marked-to-market" daily and any resulting unrealized gains or losses are recorded as unrealized appreciation or depreciation on foreign currency translations. The Fund records realized gains or losses at the time the forward contract is settled. Counterparties to these forward contracts are major U.S. financial institutions. The fund did not enter into any forward foreign currency exchange contracts for the year ended March 31, 2018.

#### (d) Short Sales

Short sales are transactions under which the Fund sells a security it does not own in anticipation of a decline in the value of that security. To complete such a transaction, the Fund must borrow the security to make delivery to the buyer. The Fund then is obligated to replace the security borrowed by purchasing the security at market price at the time of replacement. The price at such time may be more or less than the price at which the security was sold by the Fund. When a security is sold short a decrease in the value of the security will be recognized as a gain and an increase in the value of the security will be recognized as a loss, which is potentially limitless. Until the security is replaced, the Fund is required to pay the lender amounts equal to dividend or interest that accrue during the period of the loan which is recorded as an expense. To borrow the security, the Fund also may be required to pay a premium or an interest fee, which are recorded as interest expense. Cash or securities are segregated for the broker to meet the necessary margin requirements. The Fund is subject to the risk that it may not always be able to close out a short position at a particular time or at an acceptable price.

In conjunction with the use of short sales the Fund may be required to maintain collateral in various forms. At March 31, 2018, securities pledged as collateral are denoted in the Fund's Schedule of Investments and segregated cash deposited with broker for securities sold short is reflected in the Fund's Statement of Assets and Liabilities.

#### (e) Options Contracts

The Fund may write or purchase options contracts primarily to enhance the Fund's returns or reduce volatility. In addition, the Fund may utilize options in an attempt to generate gains from options premiums or to reduce overall portfolio risk. When the Fund writes or purchases an option, an amount equal to the premium received or paid by the Fund is recorded as a liability or an asset and is subsequently adjusted to the current market value of the option written or purchased. Premiums received or paid from writing or purchasing options which expire unexercised are treated by the Fund on the expiration date as realized gains or losses. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction, including brokerage commissions, is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is added to the cost of the purchase or proceeds from the sale in determining whether the Fund has realized a gain or a loss on investment transactions. The Fund, as a writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the security underlying the written option.

#### (f) Preferred Stocks

Preferred stocks are a class of stock having a preference over common stock as to the payment of dividends and the recovery of investment in the event a company is liquidated, although preferred stock is usually subordinate to the debt securities of the issuer. Preferred stock typically does not possess voting rights and its market value may change based on changes in interest rates. If interest rates rise, the fixed dividend on preferred stocks may be less attractive, causing the price of preferred stocks to decline. Preferred stock may have mandatory sinking fund provisions, as well as call/redemption provisions prior to maturity, a negative feature when interest rates decline.

#### (g) Stock Index Futures

The Fund may invest in stock index futures as a substitute for a comparable market position in the underlying securities. A stock index future obligates the seller to deliver (and the purchaser to accept), effectively, an amount of cash equal to a specific dollar amount times the difference between the value of a specific stock index at the close of the last trading day of the contract and the price at which the agreement is made. No physical delivery of the underlying stocks in the index is made. Initial margin deposits required upon entering into futures contracts are satisfied by the segregation of specific securities or cash as collateral for the account of the broker (the Fund's agent in acquiring the futures position). During the period the futures contracts are open, changes in the value of the contracts are recognized as unrealized gains or losses by "marking to market" on a daily basis to reflect the market value of the contracts at the end of each day's trading. Variation margin payments are received or made depending upon whether unrealized gains or losses are incurred. When the contracts are closed, the Fund recognizes a realized gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the Fund's basis in the contract. Risks of entering into futures contracts include the possibility that a change in the value of the contract may not correlate with the changes in the value of the underlying instruments. The purchase of a futures contract involves the risk that the Fund could lose more than the original margin deposit required to initiate the futures transaction. Finally, the risk exists that losses could exceed amounts disclosed on the Statement of Assets and Liabilities. There is minimal counterparty credit risk involved in entering into futures contracts since they are exchange-traded instruments and the exchange's clearinghouse, as counterparty to all exchange-traded futures, guarantees the futures against default.

#### (h) Investment Transactions, Investment Income and Expenses

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the exdividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends, if applicable, are paid (a portion of which may be reclaimable) or provided for in accordance with the applicable country's tax rules and rates and are disclosed in the Statement of Operations. Withholding tax reclaims are filed in certain countries to recover a portion of the amounts previously withheld. The Fund records a reclaim receivable based on a number of factors, including a jurisdiction's legal obligation to pay reclaims as well as payment history and market convention. Discounts or premiums on debt securities are accreted or amortized to interest income over the lives of the respective securities using the effective interest method. Income and expenses of the Fund are allocated on a pro rata basis to each class of shares. Expenses incurred by the Trust with respect to more than one fund are allocated in proportion to the net assets of each fund except where allocation of direct expenses to each fund or an alternative allocation method can be more appropriately made.

#### (i) Federal Income Taxes

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized gains to its shareholders. Therefore, no provision is made for federal income or excise taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purposes, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses are recorded by the Fund.

Accounting for Uncertainty in Income Taxes (the "Income Tax Statement") requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing a Fund's tax returns to determine whether these positions meet a "more-likely-than-not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the "more-likely-than-not" recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations.

The Income Tax Statement requires management of the Fund to analyze tax positions taken in the prior three open tax years, if any, and tax positions expected to be taken in the Fund's current tax year, as defined by the IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state tax authorities. As of and during the open years ended March 31, 2015-2018, the Fund did not have a liability for any unrecognized tax benefits. The Fund has no examination in progress and is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

#### (j) Distributions to Shareholders

The Fund will make distributions of net investment income semi-annually and capital gains, if any, at least annually. Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The character of distributions made during the year from net investment income or net realized gains may differ from the characterization for federal income tax purposes due to differences in the recognition of income, expense and gain (loss) items for financial statement and tax purposes.

#### Note 3 - Investment Advisory and Other Agreements

The Trust, on behalf of the Fund, entered into an Investment Advisory Agreement (the "Agreement") with Palmer Square Capital Management LLC (the "Advisor"). Under the terms of the Agreement, the Fund pays a monthly investment advisory fee to the Advisor at the annual rate of 0.35% of the Fund's average daily net assets. The Trust, on behalf of the Fund, has also entered into a Sub-Advisory Agreement with SSI Investment Management, Inc. (the "Sub-Advisor"). Under the terms of the Sub-Advisory Agreement, the Fund pays a monthly investment advisory fee to the Sub-Advisor at the annual rate of 0.95% for the first \$300 million of the Fund's average daily net assets and 0.85% of the Fund's average daily net assets greater than \$300 million. Prior to December 18, 2017, the Fund paid a monthly investment advisory fee to the Sub-Advisor at the annual rate of 0.95% of the Fund's average daily net assets. The Fund's Advisor and Sub-Advisor have contractually agreed to waive their fees and/or pay for expenses of the Fund to ensure that total annual fund operating expenses (excluding any shareholder servicing plan fees, taxes, leverage interest, brokerage commissions, dividend or interest expenses on short sales, acquired fund fees and expenses as determined in accordance with Form N1-A, expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.74% and 1.49% of the average daily net assets of the Fund's Class A shares and Class I shares, respectively. The expense limitation agreement has been structured so that the Advisor will first be required to waive an amount up to its entire management fee (0.35%) before the Sub-Advisor will be required to waive its fee or absorb Fund operating expenses that exceed the amount of the Advisor's fee. This agreement is effective until July 31, 2018 and is subject thereafter to annual re-approval of the agreement by the Advisor, Sub-Advisor, and the Trust's Board of Trustees. This agreement may be terminated before that date only with the consent of the Trust's Board of Trustees.

For the year ended March 31, 2018, the Advisor waived a portion of its advisory fees totaling \$2,768 and the Sub-Advisor waived none of its sub-advisory fees. The Advisor and Sub-Advisor may recover from the Fund fees and/or expenses previously waived and/or absorbed, if the Fund's expense ratio, including the recovered expenses, falls below the expense limit at which they were waived. The Fund's advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending three full fiscal years after the date of the waiver or payment. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund's annual expense ratio to exceed the lesser of (a) the expense limitation amount in effect at the time such fees were waived or payments made, or (b) the expense limitation amount in effect at the time of the reimbursement. At March 31, 2018, the amount of these potentially recoverable expenses was \$26,235. The Advisor may recapture all or a portion of this amount no later than March 31, of the years stated below.

2019	\$ 23,467
2020	-
2021	2,768
Total	\$ 26.235

IMST Distributors, LLC serves as the Fund's distributor; UMB Fund Services, Inc. ("UMBFS") serves as the Fund's fund accountant, transfer agent and co-administrator; and Mutual Fund Administration, LLC ("MFAC") serves as the Fund's other co-administrator.

The Fund has a fee arrangement with its custodian, UMB Bank, n.a., which provides for custody fees to be reduced by earning credits based on cash balances left on deposit with the custodian. For the year ended March 31, 2018, the total fees reduced by earning credits were \$3,072. Such amount is shown as a reduction of expenses, "Fees paid indirectly", on the Statement of Operations.

Certain trustees and officers of the Trust are employees of UMBFS or MFAC. The Fund does not compensate trustees and officers affiliated with the Fund's co-administrators. For the year ended March 31, 2018, the Fund's allocated fees incurred for Trustees who are not affiliated with the Fund's co-administrators are reported on the Statement of Operations.

The Fund's Board of Trustees has adopted a Deferred Compensation Plan (the "Plan") for the Independent Trustees that enables Trustees to elect to receive payment in cash or the option to select various Fund in the Trust in which their deferred accounts shall be deemed to be invested. If a trustee elects to defer payment, the Plan provides for the creation of a deferred payment account. The Fund's liability for these amounts is adjusted for market value changes in the invested Fund and remains a liability to the Fund until distributed in accordance with the Plan. The Trustees Deferred compensation liability under the Plan constitutes a general unsecured obligation of the Fund and is disclosed in the Statement of Assets and Liabilities. Contributions made under the plan and the change in unrealized appreciation/depreciation and income are included in the Trustees' fees and expenses in the Statement of Operations.

Dziura Compliance Consulting, LLC provides Chief Compliance Officer ("CCO") services to the Trust. The Fund's allocated fees incurred for CCO services for the year ended March 31, 2018, are reported on the Statement of Operations.

#### Note 4 - Federal Income Taxes

At March 31, 2018, the cost of securities on a tax basis and gross unrealized appreciation and (depreciation) on investments and securities sold short for federal income tax purposes were as follows:

Cost of investments	\$ 158,947,125
Gross unrealized appreciation	\$ 34,881,874
Gross unrealized depreciation	 (31,734,474)
Net unrealized appreciation on investments	\$ 3,147,400

The difference between cost amounts for financial statement and federal income tax purposes is due primarily to timing differences in recognizing certain gains and losses in security transactions.

GAAP requires that certain components of net assets be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. For the year ended March 31, 2018, permanent differences in book and tax accounting have been reclassified to paid-in capital, accumulated net investment income/loss and accumulated net realized gain/loss as follows:

	Increase (Decrease)	
	Accumulated Net	Accumulated Net
Paid-in Capital	Investment Income/Loss	Realized Gain/Loss
\$ 4,619	\$ 85,246	\$ (89,865)

As of March 31, 2018, the components of accumulated earnings (deficit) on a tax basis were as follows:

Undistributed ordinary income	\$ 1,223,852
Undistributed long-term capital gains	
Tax accumulated earnings	1,223,852
Accumulated capital and other losses	(10,946,549)
Net unrealized depreciation on securities sold short	(12,374,152)
Net unrealized appreciation on written options contracts	132,021
Net unrealized appreciation on investments	15,389,531
Total accumulated deficit	\$ (6,575,297)

At March 31, 2018, the Fund had \$10,946,549 of accumulated capital loss carryforward which consisted of \$891,897 short-term and \$10,054,652 long-term. To the extent that a fund may realize future net capital gains, those gains will be offset by any of its unused capital loss carryforward. Future capital loss carryover utilization in any given year may be subject to Internal Revenue Code limitations.

The Fund utilized \$3,990,453 of its capital loss carryforwards during the year ended March 31, 2018.

The tax character of distributions paid during the fiscal years ended March 31, 2018 and March 31, 2017 were as follows:

Distributions paid from:	2018		2017		
Ordinary income	\$	5,368,295	\$ 3,689,758		
Net long-term capital gains		-			
Total distributions paid	\$	5,368,295	\$ 3,689,758		

#### Note 5 - Investment Transactions

For the year ended March 31, 2018, purchases and sales of investments, excluding short-term investments, were \$123,260,967 and \$115,115,019, respectively. Securities sold short and short securities covered were \$73,370,260 and \$75,127,582, respectively, for the same period.

#### Note 6 - Shareholder Servicing Plan

The Trust, on behalf of the Fund, has adopted a Shareholder Servicing Plan to pay a fee at an annual rate of up to 0.25% of average daily net assets of shares serviced by shareholder servicing agents who provide administrative and support services to their customers.

For the year ended March 31, 2018, shareholder servicing fees incurred are disclosed on the Statement of Operations.

#### Note 7 – Distribution Plan

The Trust, on behalf of the Fund, has adopted a Distribution Plan (the "Plan") pursuant to Rule 12b-1 under the 1940 Act that allows the Fund to pay distribution fees for the sale and distribution of its Class A shares. The Plan provides for the payment of distribution fees at the annual rate of up to 0.25% of average daily net assets attributable to Class A shares.

For the year ended March 31, 2018, distribution fees incurred with respect to Class A shares are disclosed on the Statement of Operations.

#### Note 8 - Indemnifications

In the normal course of business, the Fund enters into contracts that contain a variety of representations which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund expects the risk of loss to be remote.

#### Note 9 – Fair Value Measurements and Disclosure

Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or a liability, when a transaction is not orderly, and how that information must be incorporated into a fair value measurement.

Under Fair Value Measurements and Disclosures, various inputs are used in determining the value of the Fund's investments. These inputs are summarized into three broad Levels as described below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different Levels of the fair value hierarchy. In such cases, for disclosure purposes, the Level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest Level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used, as of March 31, 2018, in valuing the Fund's assets carried at fair value:

	Level 1	Level 2	Level 3**	Total
Assets				
Investments				
Corporate Bonds*	\$ -	\$ 217,036,398	\$ -	\$ 217,036,398
Exchange-Traded Funds	2,497,000	-	-	2,497,000
Preferred Stocks				
Basic Materials	4,567,950	-	-	4,567,950
Communications	2,822,784	-	-	2,822,784
Consumer, Non-cyclical	5,914,829	-	-	5,914,829
Energy	1,028,527	-	-	1,028,527
Financial	11,390,909	3,276,286	-	14,667,195
Technology	-	9,189,491	-	9,189,491
Utilities	2,924,468	-	-	2,924,468
Short-Term Investments	8,760,856	-		8,760,856
Total Investments	\$ 39,907,323	\$ 229,502,175	\$ -	\$ 269,409,498
Liabilities				
Securities Sold Short				
Common Stocks*	\$ 106,934,935	\$ -	\$ -	\$ 106,934,935
Written Options Contracts	121,688	258,350	-	380,038
Total Liabilities	\$ 107,056,623	\$ 258,350	\$ -	\$ 107,314,973

<sup>\*</sup> All corporate bonds held in the Fund are Level 2 securities and all common stocks held in the Fund are Level 1 securities. For a detailed break-out by major industry classification, please refer to the Schedule of Investments.

Transfers between Levels 1, 2 or 3 are recognized at the end of the reporting period. Transfers between Level 1 and Level 2 relate to an increase in trading activity as of March 31, 2018. The following is a reconciliation of transfers between Levels for the Fund from March 31, 2017 to March 31, 2018, represented by recognizing the March 31, 2018 market value of securities:

Transfers into Level 1 Transfers out of Level 1	\$ 6,728,888
Net transfers in (out) of Level 1	\$ 6,728,888
Transfers into Level 2	\$ _
Transfers out of Level 2	 (6,728,888)
Net transfers in (out) of Level 2	\$ (6,728,888)

<sup>\*\*</sup> The Fund did not hold any Level 3 securities at period end.

# Palmer Square SSI Alternative Income Fund NOTES TO FINANCIAL STATEMENTS - Continued March 31, 2018

#### Note 10 - Derivative and Hedging Disclosure

*Derivatives and Hedging* requires enhanced disclosures about the Fund's derivative and hedging activities, including how such activities are accounted for and their effects on the Fund's financial position, performance and cash flows.

The effects of these derivative instruments on the Fund's financial position and financial performance as reflected in the Statement of Assets and Liabilities and Statement of Operations are presented in the tables below. The fair values of derivative instruments as of March 31, 2018 by risk category are as follows:

	Asset Derivatives			<b>Liability Derivatives</b>			
Derivatives not designated as	Statement of Asset and Liabilities				Statement of Asset and Liabilities		
hedging instruments	Location		Value		Location		Value
	Purchased options				Written options		
Equity contracts	contracts, at value	\$		-	contracts, at value	\$	380,038
Total		\$		-		\$	380,038

The effects of derivative instruments on the Statement of Operations for the year ended March 31, 2018 are as follows:

#### Derivatives not designated as hedging instruments

	Equity Contracts	Foreign exchange contracts	Interest Rate Contracts	Total
Realized Gain (Loss) on Derivatives				
Purchased options contracts	\$ (261,349)	\$ - \$	- \$	(261,349)
Written options contracts	202,584	-	-	202,584
	\$ (58,765)	\$ - \$	- \$	(58,765)

	Equity Contracts	Foreign exchange contracts	Inte Ra Cont	te	Total

Written options contracts	 93,742	-		-	93,742
	\$ 226,936	\$ -	\$	- \$	226,936

The quarterly average volumes of derivative instruments as of March 31, 2018 are as follows:

Derivatives not designated a hedging instruments	S		
Equity contracts	Purchased options contracts	Notional Value	\$ 9,988
	Written options contracts	Notional Value	\$ (2,222,574)

# Palmer Square SSI Alternative Income Fund NOTES TO FINANCIAL STATEMENTS - Continued March 31, 2018

Note 11 – Disclosure for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent) Disclosure for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent) removes the requirement to categorize within the fair value hierarchy investments measured using the net asset value per share ("NAV") practical expedient, as well as removes certain disclosure requirements for investments that qualify, but do not utilize, the NAV practical expedient. Management has evaluated the impact on the financial statement disclosures and determined that there is no effect.

#### Note 12 - Line of Credit

The Fund together with other funds managed by the Advisor (together "Palmer Square Funds") has entered into a Senior Secured Revolving Credit Facility ("Facility") of \$25,000,000 with UMB Bank, n.a. The Fund is permitted to borrow up to the lesser of one-third of the Fund's total assets, or \$3,750,000, the maximum amount permitted subject to the Fund's investment limitations. The purpose of the Facility is to finance temporarily the repurchase or redemption of shares of each fund. Borrowings under this agreement bear interest at the one-month London Interbank Offered Rate (LIBOR) plus 1.75%. As compensation for holding the lending commitment available, the Palmer Square Funds are charged a commitment fee on the average daily unused balance of the Facility at the rate of 0.20% per annum. Commitment fees for the year ended March 31, 2018 are disclosed in the Statement of Operations. The Fund did not borrow under the line of credit agreement during the year ended March 31, 2018.

#### Note 13 – Events Subsequent to the Fiscal Period End

The Fund has adopted financial reporting rules regarding subsequent events which require an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. Management has evaluated the Fund's related events and transactions that occurred through the date of issuance of the Fund's financial statements. There were no events or transactions that occurred during this period that materially impacted the amounts or disclosures in the Fund's financial statements.

#### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of Investment Managers Series Trust and Shareholders of Palmer Square SSI Alternative Income Fund

#### **Opinion on the Financial Statements**

We have audited the accompanying statement of assets and liabilities of the Palmer Square SSI Alternative Income Fund (the "Fund"), a series of Investment Managers Series Trust, including the schedule of investments, as of March 31, 2018, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of March 31, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as the auditor of one or more of the funds in the Investment Managers Series Trust since 2007.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of March 31, 2018 by correspondence with the custodian, and brokers or by other appropriate auditing procedures where replies were not received. We believe that our audits provide a reasonable basis for our opinion.

TAIT, WELLER & BAKER LLP

Philadelphia, Pennsylvania May 30, 2018

### Palmer Square SSI Alternative Income Fund SUPPLEMENTAL INFORMATION (Unaudited)

#### **Qualified Dividend Income**

For the year ended March 31, 2018, 44.91% of dividends to be paid from net investment income from the Fund, is designated as qualified dividend income.

## Palmer Square SSI Alternative Income Fund EXPENSE EXAMPLE

For the Six Months Ended March 31, 2018 (Unaudited)

#### **Expense Example**

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payment of Class A shares; and (2) ongoing costs, including management fees; distribution and/or service (12b-1) fees (Class A only); and other Fund expenses. The examples below are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2017 to March 31, 2018.

#### **Actual Expenses**

The information in the row titled "Actual Performance" of the table below provides actual account values and actual expenses. You may use the information in these columns, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the appropriate row for your share class, in the column titled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

#### **Hypothetical Example for Comparison Purposes**

The information in the row titled "Hypothetical (5% annual return before expenses)" of the table below provides hypothetical account values and hypothetical expenses based on the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges (load) or contingent deferred sales charges. Therefore, the information in the row titled "Hypothetical (5% annual return before expenses)" is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

		Beginning Account	Ending Account	Expenses Paid
		Value	Value	During Period*
		10/1/17	3/31/18	10/1/17 – 3/31/18
Class A	Actual Performance*	\$ 1,000.00	\$ 1,008.10	\$ 10.08
	Hypothetical (5% annual			
	return before expenses)	1,000.00	1,014.94	10.12
Class I	Actual Performance*	1,000.00	1,009.60	8.80
	Hypothetical (5% annual			
	return before expenses)	1,000.00	1,016.18	8.82

<sup>\*</sup> Expenses are equal to the Fund's annualized expense ratio of 2.01% and 1.76% for Class A and Class I, respectively, multiplied by the average account value over the period, multiplied by 182/365 (to reflect the six month period). The expense ratios reflect an expense waiver. Assumes all dividends and distributions were reinvested.

#### Privacy Principles of the Palmer Square SSI Alternative Income Fund for Shareholders

The Fund is committed to maintaining the privacy of its shareholders and to safeguarding its non-public personal information. The following information is provided to help you understand what personal information the Fund collects, how we protect that information and why, in certain cases, we may share information with select other parties.

Generally, the Fund does not receive any non-public personal information relating to its shareholders, although certain non-public personal information of its shareholders may become available to the Fund. The Fund does not disclose any non-public personal information about its shareholders or former shareholders to anyone, except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

This report is sent to shareholders of the Palmer Square SSI Alternative Income Fund for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this report.

#### **Proxy Voting Policies and Procedures**

A description of the Fund's proxy voting policies and procedures related to portfolio securities is available without charge, upon request, by calling the Fund at (866) 933-9033, or on the U.S. Securities and Exchange Commission's ("SEC") website at <a href="www.sec.gov">www.sec.gov</a>.

#### **Proxy Voting Record**

Information regarding how the Fund voted proxies for portfolio securities, if applicable, during the most recent 12-month period ended June 30, is also available, without charge and upon request by calling the Fund at (866) 933-9033, or by accessing the Fund's Form N-PX on the SEC's website at <a href="https://www.sec.gov">www.sec.gov</a>.

#### Form N-Q Disclosure

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC website at <a href="www.sec.gov">www.sec.gov</a> or by calling the Fund at (866) 933-9033. The Fund's Form N-Q may also be viewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330.

#### Householding

The Fund will mail only one copy of shareholder documents, including prospectuses, annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called "householding" and is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please call the Fund at (866) 933-9033.
