

PALMER SQUARE SSI ALTERNATIVE INCOME FUND

Class A Shares

(Ticker Symbol: PSCAX)

Class I Shares

(Ticker Symbol: PSCIX)

A series of Investment Managers Series Trust

**Supplement dated December 18, 2017, to the
Prospectus and the Statement of Additional Information (“SAI”) dated August 1, 2017.**

Effective December 18, 2017 (the “Effective Date”), SSI Investment Management, Inc. (the “Sub-Advisor”), the sub-advisor to the Palmer Square SSI Alternative Income Fund (the “Fund”), has agreed to implement a breakpoint with respect to the sub-advisory fee it receives from the Fund. Under the new arrangement, for Fund assets up to \$300 million, the Sub-Advisor will continue to receive 0.95% of the Fund’s average daily net assets, and for Fund assets greater than \$300 million, will receive 0.85%. Palmer Square Capital Management LLC, the Fund’s advisor, will continue to receive a management fee of 0.35% of the Fund’s average daily net assets.

Accordingly, the first footnote to the “Fees and Expenses” table on page 1 of the Prospectus is replaced with the following:

- 1 The management fee includes fees of 0.35% payable to the Fund’s advisor and 0.95% payable to the Fund’s sub-advisor for the first \$300 million in Fund assets and 0.85% for Fund assets over \$300 million.

In addition, the third paragraph under “The Sub-Advisor” beginning on page 15 of the Prospectus is replaced with the following:

For its services, the Sub-Advisor is entitled to receive an annual sub-advisory fee of 0.95% for the first \$300 million in assets and 0.85% for assets over \$300 million, calculated daily and payable monthly, as a percentage of the Fund’s average daily net assets. Prior to December 18, 2017, the Sub-Advisor received a sub-advisory fee of 0.95% of the Fund’s average daily net assets. The Sub-Advisor received the full sub-advisory fee for the fiscal year ended March 31, 2017. A discussion regarding the basis for the Board’s approval of the Sub-Advisory Agreement is available in the Fund’s Semi-Annual Report to shareholders dated as of September 30, 2016.

As of the Effective Date, all other references in the Fund’s Prospectus and SAI to the sub-advisory fee arrangement are revised as indicated above.

Please file this Supplement with your records.

This Prospectus sets forth basic information about the Fund that you should know before investing.
It should be read and retained for future reference.

The date of this Prospectus is August 1, 2017.

SUMMARY SECTION

Investment Objectives

The primary investment objective of Palmer Square SSI Alternative Income Fund (the “Fund”) is income. As a secondary investment objective, the Fund seeks absolute returns.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in Class A shares of the Fund. More information about these and other discounts is available from your financial professional and in the section titled “PURCHASE OF SHARES” on page 17 of this Prospectus and in “APPENDIX A – Waivers and Discounts Available from Intermediaries” of the Prospectus.

	Class A	Class I
Shareholder Fees		
<i>(fees paid directly from your investment)</i>		
Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	5.75%	None
Maximum deferred sales charge (load)	None	None
Redemption fee (as a percentage of amount redeemed)	None	None
Wire fee	\$20	\$20
Overnight check delivery fee	\$25	\$25
Retirement account fees (annual maintenance and full redemption requests)	\$15	\$15
Annual Fund Operating Expenses		
<i>(expenses that you pay each year as a percentage of the value of your investment)</i>		
Management fees ¹	1.30%	1.30%
Distribution and service (12b-1) fees	0.25%	None
Other expenses	0.76%	0.76%
Dividend and interest expense on short sales	0.50%	0.50%
Shareholder service fee	0.07%	0.07%
All other expenses	0.19%	0.19%
Acquired fund fees and expenses	0.01%	0.01%
Total annual fund operating expenses	<u>2.32%</u>	<u>2.07%</u>
Recoupment of fees waived and/or expenses reimbursed ²	0.00%	0.00%
Total annual fund operating expenses after recoupment of waived fees and/or reimbursed expenses²	<u>2.32%</u>	<u>2.07%</u>

- 1 The management fee includes fees of 0.35% payable to the Fund’s advisor and 0.95% payable to the Fund’s sub-advisor.
- 2 The Fund’s advisor and sub-advisor have contractually agreed to waive their fees and/or pay for expenses of the Fund to ensure that total annual fund operating expenses (excluding, as applicable, any shareholder servicing plan fees, taxes, leverage interest, brokerage commissions, dividend or interest expenses on short sales, acquired fund

fees and expenses as determined in accordance with Form N-1A, expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.74% and 1.49% of the average daily net assets of the Fund's Class A shares and Class I shares, respectively. The expense limitation agreement has been structured so that the advisor is first required to waive an amount up to its entire management fee (0.35%) before the sub-advisor is required to waive its fee or pay for Fund operating expenses that exceed the amount of the advisor's fee. This agreement is effective until July 31, 2018 and is subject thereafter to annual re-approval of the agreement by the advisor, the sub-advisor, and the Trust's Board of Trustees. This agreement may be terminated before that date only with the consent of the Trust's Board of Trustees. The Fund's advisor and sub-advisor are permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending three full fiscal years after the date of the waiver or payment. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund's annual expense ratio to exceed the lesser of (a) the limitation on Fund expenses in effect at the time of the relevant reduction in advisory fees or payment of the Fund's expenses, or (b) the limitation on Fund expenses at the time of the reimbursement.

Example

This example is intended to help you compare the cost of investing in the Fund with the costs of investing in other mutual funds.

The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same.

Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	One Year	Three Years	Five Years	Ten Years
Class A shares	\$797	\$1,258	\$1,744	\$3,078
Class I shares	\$210	\$649	\$1,114	\$2,400

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. During the fiscal year ended March 31, 2017, the Fund's portfolio turnover rate was 54% of the average value of its portfolio.

Principal Investment Strategies

The Fund seeks primarily to invest in convertible securities and to establish short positions in the common stock of the issuers of those convertible securities. The term "convertible security" refers to a bond or a preferred stock that can be converted into shares of a company's common stock. The Fund's strategy in this regard is managed on a day-to-day basis by SSI Investment Management, Inc., the sub-advisor to the Fund (the "Sub-Advisor"), subject to overall monitoring by the Fund's investment advisor, Palmer Square Capital Management LLC (the "Advisor").

Pursuant to its strategy, the Fund seeks returns that exceed prevailing short-term interest rates (e.g., the return on 90-day U.S. Treasury bills). In combining long positions in convertible securities with short positions in common stock of the issuers of those securities, the Fund seeks to maintain a "hedged convertible" investment portfolio with returns that the Advisor and Sub-Advisor expect will generally be less volatile than and have low correlation with the broader capital markets, prevailing short-term interest rates, and capital markets indices.

The Fund will generally invest in convertible securities that are part of an issuance that is at least \$40 million in size, which may be issued by U.S. or non-U.S. companies. The Fund will generally, but not exclusively, seek to invest in the convertible securities of companies with market capitalizations between \$500 million and \$10 billion. The Fund may hold investment-grade and below investment-grade (i.e., "junk") convertible securities.

In pursuing the Fund's investment strategy, the Sub-Advisor seeks to identify convertible securities that it believes are undervalued. The Sub-Advisor generally assesses the income characteristics, liquidity, and "equity sensitivity" of a convertible security (i.e., the sensitivity of a convertible security to changes in the price of the issuer's common stock) in determining whether it is likely undervalued and, therefore, a candidate for investment by the Fund.

After acquiring a convertible security, the Fund will establish a short position in the common stock of the same issuer. These short positions are intended to provide the Fund's holdings of convertible securities with some protection from decreases in the price of the related common stock. The Fund seeks to hedge its long positions in this way on a security-by-security basis.

The Sub-Advisor bases the size of each short position on the sensitivity of the related convertible security to changes in the price of the issuer's common stock. The Fund's short positions will generally be smaller on a dollar value basis than its long positions in convertible securities.

The Sub-Advisor considers selling a convertible security and closing the related short position in common stock (i.e., a hedged convertible position), among other reasons, when it believes the convertible security has ceased to be undervalued relative to the Sub-Advisor's expectations, when it identifies a potentially unfavorable change in the structure of a convertible security or the underlying company, when it determines that convertible securities, as an asset class, are likely to diverge from the Sub-Advisor's expectations regarding their value or when the Fund requires cash to meet redemption requests.

The Fund is not intended to meet the short-term financial needs of any investor or to provide a complete or balanced investment program. The Fund's investment strategy involves active and frequent trading. As a result, the Fund's portfolio turnover may exceed 100% on an annual basis, which will result in the Fund incurring transaction costs that detract from performance and affect the tax treatment of the Fund's gains.

For temporary defensive purposes, the Sub-Advisor may invest up to 100% of the Fund's total assets in investment grade corporate debt securities, high-quality, short-term debt securities and money market instruments. The Fund may also hold investment grade corporate debt securities, short-term debt securities and money market instruments to retain flexibility in meeting redemptions and paying expenses. Taking a temporary defensive position may result in the Fund not achieving its investment objectives.

Principal Risks of Investing

Risk is inherent in all investing. A summary description of certain principal risks of investing in the Fund is set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors and special considerations associated with investing in the Fund, which may cause you to lose part or all of your investment in the Fund. There can be no assurance that the Fund will achieve its investment objectives.

Market Risk. The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry.

Convertible Securities Risk. The value of a convertible security is influenced by changes in interest rates, with investment value declining as interest rates increase and increasing as interest rates decline. The credit standing of the issuer and other factors also may have an effect on a convertible security's investment value.

Fixed Income Securities Risk. The prices of fixed income securities respond to economic developments, particularly interest rate changes, as well as to changes in an issuer's credit rating or market perceptions about the creditworthiness of an issuer. Prices of fixed income securities tend to move inversely with changes in interest rates. Typically, a rise in rates will adversely affect fixed income security prices and, accordingly, the Fund's returns and share price. In addition, fixed income securities may be subject to "call" or "extension"

risk. Call risk is the risk that, during a period of falling interest rates, the issuer may redeem a security by repaying it early, which may reduce the Fund's income if the proceeds are reinvested at lower interest rates. Extension risk occurs during a rising interest rate environment because certain obligations will be paid off by an issuer more slowly than anticipated, causing the value of those securities held by the Fund to fall.

Preferred Securities Risk. Preferred securities are generally subordinated to bonds and other debt instruments in a company's capital structure in terms of having priority to corporate income, claims to corporate assets and liquidation payments, and therefore will be subject to greater credit risk than more senior debt instruments. Generally, preferred securities offer no voting rights with respect to the issuer unless preferred dividends have been in arrears for a specified number of periods, at which time the preferred security holders may elect a number of directors to the issuer's board. Generally, once all the arrearages have been paid, it is typical that the preferred security holders no longer have voting rights. In addition, preferred securities often have features that can adversely affect their returns. For instance, preferred securities may include provisions that permit the issuer, at its discretion, to defer or omit distributions for a stated period without any adverse consequences to the issuer. Preferred securities also frequently have call features that allow the issuer to repurchase the security prior to its stated maturity. An issuer may be able to exercise an option to redeem its preferred securities at par earlier than scheduled. Certain preferred securities, for example, have redemption features that are triggered by changes in U.S. federal income tax or securities laws.

Preferred securities may be substantially less liquid than many other securities, such as common stocks or U.S. Government securities.

Credit Risk. An issuer of a debt security or a preferred security could suffer an adverse change in financial condition that results in a payment default, security downgrade, perception that it is less creditworthy or inability to meet a financial obligation.

Interest Rate Risk. Interest rate risk is the risk that prices of fixed income and preferred securities generally increase when interest rates decline and decrease when interest rates increase. Prices of longer term securities generally change more in response to interest rate changes than prices of shorter term securities. The Fund may lose money if short term or long term interest rates rise sharply or otherwise change in a manner not anticipated by the Advisor or Sub-Advisor.

Short Sales Risk. In connection with establishing a short position in a security, the Fund is subject to the risk that it may not always be able to borrow a security, or to close out a short position at a particular time or at an acceptable price. If the price of the borrowed security increases between the date of the short sale and the date on which the Fund replaces the borrowed security, the Fund will experience a loss, which is theoretically unlimited since there is a theoretically unlimited potential for the market price of a security sold short to increase.

Leveraging Risk. Certain transactions the Fund may undertake, including short positions in financial instruments, may give rise to a form of leverage. Leverage creates exposure to gains and losses in a greater amount than the dollar amount made in an investment. Leverage can magnify the effects of changes in the value of the Fund's investments and make the Fund more volatile. Relatively small market movements may result in large changes in the value of a leveraged investment. The potential loss on such leveraged investments may be substantial relative to the initial investment therein. The Fund may also have to sell assets at inopportune times to satisfy its obligations in connection with such transactions.

Equity Risk. The value of the equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests.

Foreign Investment Risk. To the extent the Fund has investment exposure to foreign markets, the Fund's performance will be influenced by political, social and economic factors affecting investments in such markets, including exposure to currency fluctuations, less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, political instability and differing auditing and legal standards. Emerging markets tend to be more volatile than the markets of more mature economies, and

generally have less diverse and less mature economic structures and less stable political systems than those of developed countries.

Currency Risk. Investments in financial instruments related to or denominated in foreign currencies are subject to the risk that those currencies will decline in value relative to the U.S. Dollar. Similarly, investments that speculate on the appreciation of the U.S. Dollar are subject to the risk that the U.S. Dollar may decline in value relative to foreign currencies. Currency conversion costs and currency fluctuations could erase investment gains or add to investment losses. Currency exchange rates can be volatile and are affected by factors such as general economic conditions, the actions of the United States and foreign governments or central banks, the imposition of currency controls, and speculation.

Small-Cap and Mid-Cap Company Risk. The securities of small capitalization and mid-capitalization companies may be subject to more abrupt or erratic market movements and may have lower trading volumes or more erratic trading than securities of larger, more established companies or market averages in general. In addition, such companies typically are more likely to be adversely affected than large capitalization companies by changes in earning results, business prospects, investor expectations or poor economic or market conditions.

Below Investment Grade Risk. Debt securities rated below investment grade (often called “junk bonds”) are speculative and generally involve greater risks of default, downgrade, or price declines and are more volatile and tend to be less liquid than higher-rated securities. Companies issuing high yield, fixed income securities are less financially strong, are more likely to encounter financial difficulties and are more vulnerable to changes in the economy than those companies with higher credit ratings.

Liquidity Risk. The Fund may not be able to sell some or all of the investments that it holds due to a lack of demand in the marketplace or other factors such as market turmoil, or if the Fund is forced to sell an illiquid asset to meet redemption requests or other cash needs it may only be able to sell those investments at a loss. In addition, the reduction in dealer market-making capacity in the fixed income markets that has occurred in recent years has the potential to decrease the liquidity of the Fund’s investments. Illiquid assets may also be difficult to value.

Portfolio Turnover Risk. The Fund’s annual portfolio turnover rate may vary greatly from year to year, as well as within a given year. Active and frequent trading may lead to a greater proportion of the Fund’s gains being treated for federal income tax purposes as short-term capital gains (which are generally taxable as ordinary income when distributed to shareholders) or may cause the Fund to distribute taxable income to its shareholders sooner than it would have distributed income if the investments were held for longer periods of time. Frequent trading may also increase transaction costs, which could detract from the Fund’s performance.

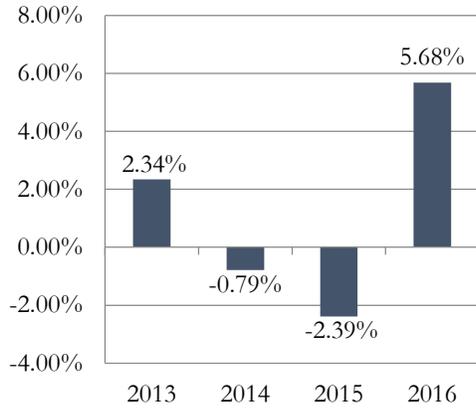

Management and Strategy Risk. The value of your investment depends on the judgment of the Advisor and Sub-Advisor about the quality, relative yield, value or market trends affecting a particular security, industry, sector or region, which may prove to be incorrect. Investment strategies employed by the Advisor and the Sub-Advisor in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.

Performance

The bar chart and table below provide some indication of the risks of investing in the Fund by showing changes in the Fund’s performance from year to year for Class I shares and by showing how the average annual total returns of each class of the Fund compare with the average annual total returns of a broad-based market index. Performance for classes other than those shown may vary from the performance shown to the extent the expenses for those classes differ. Updated performance information is available at the Fund’s website, www.palmersquarefunds.com, or by calling the Fund at 1-866-933-9033. The Fund’s past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Sales loads are not reflected in the bar chart, and if those charges were included, returns would be less than those shown.

Calendar-Year Total Return (before taxes) for Class I Shares

For each calendar year at NAV

The year-to-date return as of June 30, 2017 was 2.63%.

Class I Shares		
Highest Calendar Quarter Return at NAV	3.18%	Quarter Ended 06/30/2016
Lowest Calendar Quarter Return at NAV	(2.03)%	Quarter Ended 09/30/2015

Average Annual Total Returns for periods ended December 31, 2016

	One Year	Since Inception (May 25, 2012)
Class I - Return Before Taxes	5.68%	1.53%
Class I - Return After Taxes on Distributions*	5.27%	0.96%
Class I - Return After Taxes on Distributions and Sale of Fund Shares*	3.41%	1.09%
Class A - Return Before Taxes	(0.59)%	0.03%
Citigroup 3-Month T-Bill Index (Reflects No Deductions for Fees, Expenses or Taxes)	0.27%	0.09%

* After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown for Class I Shares only and after-tax returns for classes other than Class I will vary from returns shown for Class I.

Advisor

Palmer Square Capital Management LLC serves as the Fund’s investment advisor pursuant to an investment management agreement with the Fund.

Sub-Advisor

SSI Investment Management, Inc. serves as the sub-advisor to the Fund pursuant to a separate investment sub-advisory agreement directly with the Fund.

Portfolio Managers

The members of the portfolio management team listed below are jointly and primarily responsible for the day-to-day management of the Fund’s portfolio.

Portfolio Manager	Managed the Fund Since:
George M. Douglas, Principal, Portfolio Manager, and Chief Investment Officer, SSI Investment Management, Inc.	Inception, May 25, 2012
Alexander W. Volz, Portfolio Manager, SSI Investment Management, Inc.	Inception, May 25, 2012
Dagney M. Hollander, Portfolio Manager, SSI Investment Management, Inc.	August 1, 2013

Purchase and Sale of Fund Shares

The following shows the Fund's investment minimums for various types of accounts:

Minimum Investments	To Open Your Account	To Add to Your Account
Class A Shares		
Direct Regular Accounts	\$2,500	\$100
Direct Retirement Accounts	\$2,500	\$100
Automatic Investment Plan	\$2,500	\$100
Gift Account For Minors	\$2,500	\$100
Class I Shares		
All Accounts	\$1,000,000	\$5,000

Fund shares are redeemable on any business day the New York Stock Exchange (the "NYSE") is open for business, by written request or by telephone.

Tax Information

The Fund's distributions are generally taxable and will ordinarily be taxed as ordinary income, qualified dividend income or capital gains, unless you are investing through a tax advantaged arrangement, such as a 401(k) plan or an individual retirement account. Shareholders investing through such tax-advantaged arrangements may be taxed later upon withdrawal of monies from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

MORE ABOUT THE FUND'S INVESTMENT OBJECTIVES, PRINCIPAL INVESTMENT STRATEGIES AND RISKS

Investment Objectives

The Fund's primary investment objective is income. As a secondary investment objective, the Fund seeks absolute returns. The Fund's investment objectives are not fundamental and may be changed by the Board of Trustees without shareholder approval upon at least 60 days' prior written notice to shareholders. There can be no assurances that the Fund will achieve its investment objectives. The Fund's investment strategies and policies may be changed from time to time without shareholder approval or prior written notice, unless specifically stated otherwise in this Prospectus or the SAI.

Principal Investment Strategies

The Fund seeks primarily to invest in convertible securities and to establish short positions in the common stock of the issuers of those convertible securities. The term "convertible security" refers to a bond or a preferred stock that can be converted into shares of a company's common stock. The Fund's strategy in this regard is managed on a day-to-day basis by the Sub-Advisor, subject to overall monitoring by the Advisor.

Pursuant to its strategy, the Fund seeks returns that exceed prevailing short-term interest rates (e.g., the return on 90-day U.S. Treasury bills). In combining long positions in convertible securities with short positions in common stock of the issuers of those securities, the Fund seeks to maintain a "hedged convertible" investment portfolio with returns that the Advisor and Sub-Advisor expect will generally be less volatile than and have low correlation with the broader capital markets, prevailing short-term interest rates, and capital markets indices. In addition, the Advisor and the Sub-Advisor anticipate that this strategy will generally lead to lower correlation between the returns experienced by the Fund's investment portfolio and the performance of those markets, rates, and indices. There can be no assurance that this strategy will reduce the volatility and correlation of the Fund's investment portfolio in the manner intended.

The Fund will generally invest in convertible securities that are part of an issuance that is at least \$40 million in size. The Fund will generally, but not exclusively, seek to invest in the convertible securities of companies with market capitalizations between \$500 million and \$10 billion. Convertible securities held by the Fund may be issued by U.S. or non-U.S. companies. The Fund may hold investment-grade and below investment-grade (i.e., "junk") convertible securities.

In pursuing the Fund's investment strategy, the Sub-Advisor seeks to identify convertible securities that it believes are undervalued. The Sub-Advisor generally assesses the income characteristics, liquidity, and "equity sensitivity" (described below) of a convertible security in determining whether it is likely undervalued and, therefore, a candidate for investment by the Fund. After acquiring a convertible security, the Fund will establish a short position in the common stock of the same issuer. These short positions are intended to provide the Fund's holdings of convertible securities with some protection from decreases in the price of the related common stock. The Fund seeks to hedge its long positions in this way on a security-by-security basis.

The Sub-Advisor bases the size of each short position on the sensitivity of the related convertible security to changes in the price of the issuer's common stock. In other words, the Fund will establish short positions based largely on the extent to which the Sub-Advisor believes movements in the price of an issuer's common stock are likely to affect the price of the issuer's convertible securities. If a convertible security has a low premium over conversion value but a high premium over investment value, the convertible security will be expected to be very equity sensitive and to have a high correlation to movement in the related common stock. Such a convertible security will generally be relatively insensitive to changes in interest rates. If the convertible security has a low premium over investment value but a high premium over conversion value, however, the convertible security will be expected to exhibit high sensitivity to interest rates and low sensitivity to changes in the price of the underlying common stock.

The Advisor and the Sub-Advisor believe that convertible securities typically exhibit less equity sensitivity than the common stock of an issuer. Accordingly, the Fund's short positions will generally be smaller on a dollar value basis than its long positions in convertible securities.

The Sub-Advisor actively monitors the convertible securities market for investment opportunities for the Fund. The Sub-Advisor seeks to identify investment opportunities by focusing on a variety of factors, including: relative valuation, premium trends, and prospective new issuances of convertible securities and their structures. In addition, the Sub-Advisor considers market dynamics like liquidity, credit spreads, interest rates, volatility, availability of common stock to borrow for corresponding short sales, and short interest rebate rates. (The term “short interest” refers to the interest earned on the cash generated from a short sale of common stock; the rebate of short interest is the amount returned to the person that established the short position, i.e., the Fund.)

In pursuing its strategy, the Fund seeks returns from four primary sources:

- 1) Net dividend income on equity and convertible securities positions;
- 2) Interest income on convertible securities positions;
- 3) Interest rebates on short positions; and
- 4) Net capital gains from trading profits.

The Sub-Advisor considers selling a convertible security and closing the related short position in common stock (i.e., a hedged convertible position), among other reasons, when it believes the convertible security has ceased to be undervalued relative to the Sub-Advisor’s expectations, when it identifies a potentially unfavorable change in the structure of a convertible security or the underlying company, when it determines that convertible securities, as an asset class, are likely to diverge from the Sub-Advisor’s expectations regarding their value or when the Fund requires cash to meet redemption requests. If the Sub-Advisor determines that convertible securities should be disfavored as an asset class for the Fund, it may determine to invest up to 100% of the Fund’s total assets in temporary defensive positions as described below.

The Advisor and the Sub-Advisor expect that the number of convertible securities and short positions in the Fund’s portfolio will change over time, depending upon the Sub-Advisor’s assessment of market conditions and other factors. However, the Advisor and the Sub-Advisor anticipate that the Fund typically will have at least 50 long positions in convertible securities and therefore at least 50 corresponding short positions in the related common stock.

The Fund is not intended to meet the short-term financial needs of any investor or to provide a complete or balanced investment program. The Fund’s investment strategy involves active and frequent trading. As a result, the Fund’s portfolio turnover may exceed 100% on an annual basis, which will result in the Fund incurring transaction costs that detract from performance and affect the tax treatment of the Fund’s gains.

Temporary Defensive Strategy

For temporary defensive purposes, the Sub-Advisor may invest up to 100% of the Fund’s total assets in investment grade corporate debt securities, high-quality, short-term debt securities and money market instruments. Short-term debt securities and money market instruments include cash, shares of other mutual funds, commercial paper, certificates of deposit, bankers’ acceptances, U.S. government securities and repurchase agreements. Furthermore, to the extent that the Fund invests in money market mutual funds for its cash position, there will be some duplication of expenses because the Fund will bear its pro rata portion of such money market funds’ management fees and operational expenses. The Fund may also hold investment grade corporate debt securities, short-term debt securities and money market instruments to retain flexibility in meeting redemptions and paying expenses. Taking a temporary defensive position may result in the Fund not achieving its investment objectives.

When the Advisor believes that current market, economic, political or other conditions are unsuitable and would impair the pursuit of the Fund's investment objectives, the Fund may invest some or all of its assets in cash or cash equivalents, including but not limited to, obligations of the U.S. Government, money market fund shares, commercial paper, certificates of deposit and/or bankers acceptances, as well as other interest bearing or discount obligations or debt instruments that carry an investment grade rating by a national rating agency. Although the Fund would do this for temporary defensive purposes, it could reduce any benefit from any upswing in the general market. During such periods, the Fund may not achieve its investment objectives.

Additional Investments

In addition to the principal investment strategies listed above, the Fund may engage in additional investments including investment in derivatives. The additional investments and techniques that the Fund may use are more fully described in the SAI.

Principal Risks of Investing

The Fund's principal risks are set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors and special considerations associated with investing in the Fund, which may cause you to lose money.

Market Risk. The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. For example, the financial crisis that began in 2008 caused a significant decline in the value and liquidity of many securities; in particular, the values of some sovereign debt and of securities of issuers that invest in sovereign debt and related investments fell, credit became more scarce worldwide and there was significant uncertainty in the markets. Such environments could make identifying investment risks and opportunities especially difficult for the Advisor. In response to the crisis, the United States and other governments have taken steps to support financial markets. The withdrawal of this support or failure of efforts in response to the crisis could negatively affect financial markets generally as well as the value and liquidity of certain securities. In addition, policy and legislative changes in the United States and in other countries are changing many aspects of financial regulation. The impact of these changes on the markets, and the practical implications for market participants, may not be fully known for some time.

Convertible Securities Risk. The value of a convertible security is influenced by both the yield of non-convertible securities of comparable issuers and by the value of the underlying common stock. The value of a convertible security viewed without regard to its conversion feature (i.e., strictly on the basis of its yield) is sometimes referred to as its "investment value." A convertible security's investment value tends to decline as prevailing interest rate levels increase. Conversely, a convertible security's investment value increases as prevailing interest rate levels decline. However, a convertible security's market value will also be influenced by its "conversion value," which is the market value of the underlying common stock that would be obtained if the convertible security were converted. A convertible security's conversion value tends to increase as the price of the underlying common stock increases, and decrease as the price of the underlying common stock decreases. As the market price of the underlying common stock declines such that the conversion value is substantially below the investment value of the convertible security, the price of the convertible security tends to be influenced more by the yield of the convertible security. Thus, it may not decline in price to the same extent as the underlying common stock.

If the market price of the underlying common stock increases to a point where the conversion value approximates or exceeds the investment value, the price of the convertible security tends to be influenced more by the market price of the underlying common stock. In the event of a liquidation of the issuing company, holders of convertible securities would be paid before the company's common stockholders. Consequently, the issuer's convertible securities entail less risk than its common stock.

Fixed Income Securities Risk. Prices of fixed income securities tend to move inversely with changes in interest rates. Typically, a rise in rates will adversely affect fixed income security prices and, accordingly, the Fund's share price. The longer the effective maturity and duration of the Fund's portfolio, the more the Fund's share price is likely to react to changes in interest rates. (Duration is a weighted measure of the length of time required to receive the present value of future payments, both interest and principal, from a fixed income security.) Some fixed income securities give the issuer the option to call, or redeem, the securities before their maturity dates. If an issuer calls its security during a time of declining interest rates, the Fund might have to reinvest the proceeds in an investment offering a lower yield, and therefore might not benefit from any increase in value of the security as a result of declining interest rates. During periods of market illiquidity or rising interest rates, prices of callable issues are subject to increased price fluctuation. In addition, the Fund may be subject to extension risk, which occurs during a rising

interest rate environment because certain obligations may be paid off by an issuer more slowly than anticipated, causing the value of those securities held by the Fund to fall.

Preferred Securities Risk. There are various risks associated with investing in preferred securities, including credit risk, interest rate risk, deferral and omission of distributions, subordination to bonds and other debt securities in a company's capital structure, call, reinvestment and income risk, limited liquidity, limited voting rights and special redemption rights.

- Deferral and Omission Risk. Preferred securities may include provisions that permit the issuer, at its discretion, to defer or omit distributions for a stated period without any adverse consequences to the issuer.
- Credit and Subordination Risk. Credit risk is the risk that a security in the Fund's portfolio will decline in price or the issuer of the security will fail to make dividend, interest or principal payments when due because the issuer experiences a decline in its financial status. Preferred securities are generally subordinated to bonds and other debt instruments in a company's capital structure in terms of having priority to corporate income, claims to corporate assets and liquidation payments, and therefore will be subject to greater credit risk than more senior debt instruments.
- Interest Rate Risk. Interest rate risk is the risk that preferred securities will decline in value because of changes in market interest rates. When market interest rates rise, the market value of such securities generally will fall. Preferred securities with longer periods before maturity may be more sensitive to interest rate changes.
- Call, Reinvestment and Income Risk. During periods of declining interest rates, an issuer may be able to exercise an option to redeem its preferred security at par earlier than scheduled which is generally known as call risk. Recent regulatory changes may increase call risk with respect to certain types of preferred securities. If this occurs, the Fund may be forced to reinvest in lower yielding securities. This is known as reinvestment risk. Another risk associated with a declining interest rate environment is that the income from the Fund's portfolio may decline over time when the Fund invests the proceeds from new share sales at market interest rates that are below the portfolio's current earnings rate.
- Liquidity Risk. Certain preferred securities may be substantially less liquid than many other securities, such as common stocks or U.S. Government securities. Illiquid securities involve the risk that the securities will not be able to be sold at the time desired by the Fund or at prices approximating the value at which the Fund is carrying the securities on its books.
- Limited Voting Rights Risk. Generally, preferred securities offer no voting rights with respect to the issuer unless preferred dividends have been in arrears for a specified number of periods, at which time the preferred security holders may elect a number of directors to the issuer's board. Generally, once all the arrearages have been paid, the preferred security holders no longer have voting rights. Hybrid-preferred security holders generally have no voting rights.
- Special Redemption Rights. In certain varying circumstances, an issuer of preferred securities may redeem the securities prior to a specified date. For instance, for certain types of preferred securities, a redemption may be triggered by a change in U.S. federal income tax or securities laws. As with call provisions, a redemption by the issuer may negatively affect the return of the security held by the Fund.

Credit Risk. Credit risk is the risk that an issuer of a debt security or a preferred security could suffer an adverse change in financial condition that results in a payment default, security downgrade, perception that it is less creditworthy or inability to meet a financial obligation.

Interest Rate Risk. Interest rate risk is the risk that prices of fixed income and preferred securities generally increase when interest rates decline and decrease when interest rates increase. Prices of longer term securities generally change more in response to interest rate changes than prices of shorter term securities. The Fund may lose money if short term or long term interest rates rise sharply or otherwise change in a manner not anticipated by the Advisor or Sub-Advisor.

Short Sales Risk. In connection with establishing a short position in a security, the Fund is subject to the risk that it may not always be able to borrow a security, or to close out a short position at a particular time or at an acceptable price. If the price of the borrowed security increases between the date of the short sale and the date on which the Fund replaces the borrowed security, the Fund will experience a loss, which is theoretically unlimited since there is a theoretically unlimited potential for the market price of a security sold short to increase. By investing the proceeds received from selling securities short, the Fund is employing leverage, which creates special risks. Furthermore, until the Fund replaces a security borrowed, or sold short, it must pay to the lender amounts equal to any dividends that accrue during the period of the short sale. In addition, the Fund will incur certain transaction fees associated with short selling.

Leveraging Risk. The use of leverage, such as entering into short sales, may magnify the Fund's gains or losses. Because many derivatives have a leverage component, adverse changes in the value or level of the underlying instrument can result in a loss substantially greater than the amount invested in the derivative itself. Certain derivatives have the potential for unlimited loss, regardless of the size of the initial investment.

Equity Risk. The value of equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests. The stock market has been subject to significant volatility recently which has increased the risk associated with an investment in the Fund. Common stock of an issuer in the Fund's portfolio may decline in price if the issuer fails to make anticipated dividend payments because, among other reasons, the issuer of the security experiences a decline in its financial condition. Common stock is subordinated to preferred stocks, bonds and other debt instruments in a company's capital structure, in terms of priority with respect to corporate income, and therefore will be subject to greater dividend risk than preferred stocks or debt instruments of such issuers. In addition, while broad market measures of common stocks have historically generated higher average returns than fixed income securities, common stocks have also experienced significantly more volatility in those returns.

Foreign Investment Risk. To the extent the Fund has investment exposure to foreign markets, the Fund's performance will be influenced by political, social and economic factors affecting investments in such markets. Special risks associated with investments in foreign markets include exposure to currency fluctuations, less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, political instability and differing auditing and legal standards. Emerging markets tend to be more volatile than the markets of more mature economies, and generally have less diverse and less mature economic structures and less stable political systems than those of developed countries.

Currency Risk. Investments in financial instruments related to or denominated in foreign currencies are subject to the risk that those currencies will decline in value relative to the U.S. Dollar. Similarly, investments that speculate on the appreciation of the U.S. Dollar are subject to the risk that the U.S. Dollar may decline in value relative to foreign currencies. Currency rates in foreign countries may fluctuate significantly over short periods of time. A decline in the value of foreign currencies relative to the U.S. Dollar will reduce the value of securities held by the Fund and denominated in such currencies. Foreign currencies also are subject to risks caused by inflation, interest rates, budget deficits and low savings rates, political factors and government controls.

Small-Cap and Mid-Cap Company Risk. The Fund may invest in any size company, including small- and medium-sized companies. Investments in smaller capitalized companies may involve greater risks than large-capitalized companies, such as limited product lines, markets and financial or managerial resources. Investments in small- and medium-sized companies may be more volatile than investments in larger companies because short-term changes in the demand for the securities of smaller companies may have a disproportionate effect on their market price, tending to make prices of these securities fall more in response to selling pressure. The smaller the company, the greater effect these risks may have on that company's performance. As a result, an investment in the Fund may exhibit a higher degree of volatility than the general domestic securities market.

Below Investment Grade Risk. Debt securities rated below investment grade (often called "junk bonds") generally have greater credit risk than higher-rated securities. Companies issuing high yield, fixed income securities are less financially strong, are more likely to encounter financial difficulties and are more vulnerable to changes in the economy than those companies with higher credit ratings. These factors could affect such companies' abilities to make interest and principal payments and ultimately could cause such companies to stop making interest and/or

principal payments. In such cases, payments on the securities may never resume, which would result in the securities owned by the Fund becoming worthless.

Liquidity Risk. Due to a lack of demand in the marketplace or other factors, such as market turmoil, the Fund may not be able to sell some or all of the investments that it holds, or if the Fund is forced to sell an illiquid asset to meet redemption requests or other cash needs, it may only be able to sell those investments at a loss. Liquidity risk arises, for example, from small average trading volumes, trading restrictions, or temporary suspensions of trading. In addition, when the market for certain investments is illiquid, the Fund may be unable to achieve its desired level of exposure to a certain sector. Moreover, the reduction in dealer market-making capacity in the fixed income markets that has occurred in recent years has the potential to decrease the liquidity of the Fund's investments. Liquidity risk may be more pronounced for the Fund's investments in developing countries.

Portfolio Turnover Risk. The Fund's annual portfolio turnover rate may vary greatly from year to year, as well as within a given year. The portfolio turnover rate is not considered a limiting factor in the execution of investment decisions for the Fund. Active and frequent trading may lead to a greater proportion of the Fund's gains being treated for federal income tax purposes as short-term capital gains (which are generally taxable as ordinary income when distributed to shareholders) or may cause the Fund to distribute taxable income to its shareholders sooner than it would have distributed income if the investments were held for longer periods of time. Frequent trading may also increase transaction costs, which could detract from the Fund's performance.

Management and Strategy Risk. The ability of the Fund to meet its investment objectives is directly related to the Advisor and Sub-Advisor's investment strategies for the Fund. The investment process used by the Advisor and Sub-Advisor could fail to achieve the Fund's investment objectives and cause your investment to lose value.

Portfolio Holdings Information

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information ("SAI") and on the Fund's website at www.palmersquarefunds.com. Currently, disclosure of the Fund's holdings is required to be made quarterly within 60 days of the end of each fiscal quarter, in the Fund's Annual Report and Semi-Annual Report to Fund shareholders, and in its quarterly holdings report on Form N-Q.

MANAGEMENT OF THE FUND

The Advisor

Palmer Square Capital Management LLC, a Delaware limited liability company with its principal place of business at 2000 Shawnee Mission Parkway, Suite 300, Mission Woods, Kansas 66205, is the Fund's investment advisor and provides investment monitoring and other services to the Fund pursuant to an investment advisory agreement between the Advisor and the Trust (the "Advisory Agreement"). The Advisor was founded in 2009. The Advisor is an SEC-registered investment advisor that provides investment advisory services to high net worth individuals and alternative investment funds. As of May 31, 2017, the Advisor's total assets under management were approximately \$4.2 billion. The Advisor is majority-owned by Montage Investments, LLC, a Kansas limited liability company.

Pursuant to the terms of the Advisory Agreement and subject to the general supervision of the Board of Trustees, the Advisor provides certain management services to the Fund, including (i) monitoring the activities of the Sub-Advisor and reporting thereon to the Trust's Board of Trustees; (ii) requesting information from, and reviewing reports and other information provided by the Sub-Advisor regarding the Fund's investment program; (iii) reporting the Trust's Board of Trustees on the Fund's investment portfolio and the Sub-Advisor's management of the Fund's assets, including the consistency of the Sub-Advisor's management of the portfolio with the Fund's stated investment objectives and policies; (iv) reviewing the Fund's daily net asset value calculation and consulting with the Fund's Valuation Committee with respect to the appropriate valuation of portfolio securities; (v) consulting with the Board of Trustees from time to time regarding the investment objectives, policies, strategies, and restrictions of the Fund; (vi) monitoring the Fund and the Sub-Advisor for compliance with applicable legal and regulatory requirements and advising the Board of Trustees regarding the impacts of securities and regulatory matters on investment companies with portfolios similar to that of the Fund; (vii) advising the Board of Trustees regarding non-investment related

management of the Fund's operations; (viii) performing risk management in respect of the Fund; (ix) monitoring the liquidity of the convertible securities market; (x) related administrative matters; and (xi) any other such matters as may be requested from time to time by the Trust's Board of Trustees. The Advisory Agreement also provides that the day-to-day management of the Fund's investment portfolio will be conducted by the Sub-Advisor.

For its services, the Advisor is entitled to receive an annual management fee of 0.35%, calculated daily and payable monthly, as a percentage of the Fund's average daily net assets. For the fiscal year ended March 31, 2017, the Advisor received advisory fees of 0.35% of the average daily net assets of the Fund. A discussion regarding the basis for the Board's approval of the Advisory Agreement is available in the Fund's Semi-Annual Report to shareholders dated as of September 30, 2016.

The following principals of the Advisor are principally responsible for its activities with respect to the Fund:

Christopher D. Long. Mr. Long is the President and founder of the Advisor and is responsible for the Advisor's alternative and credit investments managing both the firm's investment activities and operations as well as defining its investment policy. Prior to founding the Advisor, Mr. Long was a Managing Director and Investment Committee Member at Prairie Capital Management, LLC ("Prairie") from 2006 to 2009, where he was one of the team members responsible for the firm's proprietary alternative investment products. Prior to joining Prairie, Mr. Long was at various New York City-based firms including Sandell Asset Management, Corp. ("Sandell"), a multi-billion multi-strategy hedge fund, where he, as a Research Analyst, invested in both equity and debt securities from 2005 to 2006. Prior to Sandell, he worked at Morgan Stanley in the Credit Derivatives and Distressed Securities Group as an Associate, focusing on the firm's proprietary investments during the summer of 2004. Before Morgan Stanley, Mr. Long worked at TH Lee Putnam Ventures, a \$1.1 billion private equity fund sponsored by Thomas H. Lee Partners and Putnam Investments, from 1999 to 2003. Mr. Long started his career at JPMorgan & Co. in Leveraged Finance and Mergers & Acquisitions (FIG Group), advising corporations and private equity firms on investment banking and capital markets, from 1997 through 1999. Mr. Long received an MBA from the Harvard Business School in 2005, and an undergraduate degree in Economics, *cum laude*, from Princeton University in 1997.

Angie K. Long, CFA. Ms. Long has been the Chief Investment Officer of the Advisor since February 2011. She has key responsibilities for all investment-related activities with a particular focus on portfolio construction and risk management. Prior to joining Palmer Square, Ms. Long worked for JPMorgan Chase & Co. in New York from 1998 to 2011. There, she held a variety of management and trading roles, including Deputy Head of Credit Trading for North America, Head of High Yield Trading, and Head of Credit Derivatives Trading. She has been a trader and investor within many products and strategies including high yield bonds, high yield credit derivatives, distressed debt, capital structure arbitrage and structured credit. Among other career achievements, Ms. Long is credited with creating the High Yield Debt Index, the first liquid credit trading index. She was named a managing director of JPMorgan Chase & Co. at age 29. She was responsible for building JPMorgan's High Yield Credit Derivatives business and Credit Options business. Ms. Long holds the Series 7, 63, 4, 55, and 24 securities licenses. She received an AB degree in Economics from Princeton University in 1997 and is a CFA® charterholder.

The Sub-Advisor

SSI Investment Management, Inc., a California corporation with its principal place of business at 9440 Santa Monica Boulevard, 8th Floor, Beverly Hills, California 90210, is the Fund's investment sub-advisor and provides sub-advisory services to the Fund pursuant to an investment sub-advisory agreement directly with the Trust (the "Sub-Advisory Agreement"). The Sub-Advisory Agreement may be terminated by the Trust or the Fund's shareholders and will terminate automatically in the case of its assignment; however, it cannot be terminated by the Advisor. The Sub-Advisor was founded in 1973. The Sub-Advisor is an SEC-registered investment advisor that provides investment advisory services to pension and profit sharing plans, corporations, college endowments, Taft-Hartley plans, high-net worth individuals, private investment plans, religious organizations, and mutual funds. As of May 31, 2017, the Sub-Advisor's total assets under management were approximately \$1.4 billion.

The Sub-Advisor makes investment decisions for the Fund, subject to overall monitoring by the Advisor. In consultation with the Advisor, the Sub-Advisor is responsible on a day-to-day basis for compliance with the Fund's investment objectives, policies, strategies and restrictions. The Advisor also monitors the Sub-Advisor's adherence to the Sub-Advisor's investment strategy. The Board of Trustees supervises the Sub-Advisor and establishes policies that it must follow in its management activities.

For its services, the Sub-Advisor is entitled to receive an annual sub-advisory fee of 0.95%, calculated daily and payable monthly, as a percentage of the Fund's average daily net assets, and the Sub-Advisor received the full sub-advisory fee for the fiscal year ended March 31, 2017. A discussion regarding the basis for the Board's approval of the Sub-Advisory Agreement is available in the Fund's Semi-Annual Report to shareholders dated as of September 30, 2016.

Portfolio Managers

The following principals of the Sub-Advisor are portfolio managers of the Fund:

George M. Douglas. Mr. Douglas has been a Principal and the Chief Investment Officer of the Sub-Advisor since 1994 and oversees the Sub-Advisor's qualitative and quantitative research processes. Mr. Douglas has 40 years of experience in quantitative equity research and portfolio management. Prior to joining the Sub-Advisor, Mr. Douglas was Director of Quantitative Equity Investments and Portfolio Manager for CS First Boston Asset Management from 1992 to 1994. From 1990 to 1992, Mr. Douglas was Chief Investment Officer for Structured Asset Management, and from 1990 to 1990, Mr. Douglas was Senior Vice President and Director of Research for Drexel Burnham Lambert. Mr. Douglas received an M.B.A., Finance in 1978, an M.S., Statistics in 1977 and a B.S., Mathematics in 1976 from the University of Wisconsin-Madison.

Alexander W. Volz. Mr. Volz has been a Portfolio Manager and Convertible Trader of the Sub-Advisor since 2006 and was a Vice President and Convertible Trader for the Sub-Advisor from 2002 to 2006. Mr. Volz has 20 years of experience in portfolio management and/or convertible securities trading. Prior to joining the Sub-Advisor, Mr. Volz was a Convertible Trader for Southern Trading Partners and Wachovia Securities from 1997 to 2002. Mr. Volz received a B.A., Economics from Vanderbilt University in 1996.

Dagney M. Hollander. Ms. Hollander has been a Portfolio Manager of the Hedged Convertible Opportunity Strategy for the Sub-Advisor since 2012 and a Portfolio Manager of the Convertible Income Strategy for the Sub-Advisor since 2013. Ms. Hollander has 17 years of experience in portfolio management industry. Ms. Hollander has been a Senior Research Analyst since 2007, and was a Research Analyst from 2006 to 2007 for the Sub-Advisor. From 2002 to 2006, Ms. Hollander was a Convertible Trading Assistant for the Sub-Advisor. Ms. Hollander graduated with a BS in Finance, summa cum laude, from California State University, Northridge in 2001.

The SAI provides additional information about the portfolio managers' method of compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of Fund securities.

Prior Performance of Similar Accounts Managed by the Sub-Advisor

The table below sets forth the average annual returns of the SSI Convertible Income Strategy composite. The composite includes all accounts managed by the Sub-Advisor that have investment objectives and strategies substantially similar to those of the Fund. The Sub-Advisor will manage the Fund in substantially the same manner as it has managed the accounts comprising the SSI Convertible Income Strategy composite.

The performance figures represent the total returns of the SSI Convertible Income Strategy composite for the 1-year, 5-year, and 10-year periods. Gross returns presented were calculated on a total return basis and include all dividends and interest income, accrued income and realized and unrealized gains and losses, and deductions for brokerage commissions, execution costs, and dividend and interest expense on short sales. Net returns for each period are adjusted to assume that all charges, expenses, and fees of the Class I shares of the Fund presently in effect and listed in the Fee Table were deducted during such periods except that, as noted above, dividend and interest expenses on short sales have been previously deducted from gross returns. The net returns presented would be lower if the charges, expenses, and fees of the Fund's Class A shares were applied. All returns shown are for periods ended December 31, 2016.

The private accounts that are included in the performance data set forth below are not subject to certain investment limitations, diversification requirements, and other requirements to which the Fund is subject under the 1940 Act and the Internal Revenue Code of 1986, which had they applied might have adversely affected the SSI Convertible Income

Strategy's performance. In addition, differences in asset size and cash flows may result in different security selections, differences in relative weightings of securities, or differences in prices paid for particular portfolio holdings.

The performance data below do not represent the Fund's performance. Investors should not consider this data as a substitute for the Fund's performance, nor should investors consider this data as indicative of future performance by the Fund, the Advisor or the Sub-Advisor. The returns are not intended to predict or suggest the returns that might be experienced by the Fund or a person who invests in the Fund.

**Average Annual Total Returns
For the Periods Ended December 31, 2016**

	One Year		Five Years		Ten Years	
	Net Adjusted Return **	Gross	Net Adjusted Return**	Gross	Net Adjusted Return**	Gross
SSI Convertible Income Strategy Composite	6.08%	7.75%	2.15%	3.74%	3.81%	5.44%
90 Day Treasury Bills	N/A	0.27%	N/A	0.09%	N/A	0.73%

* Inception date: January 1, 1995.

** Net returns have been calculated by taking each gross return and subtracting 1.56% of the Fund's Class I shares net expense ratio. This figure excludes dividend and interest expense on short sales incurred during such periods which have been deducted from gross returns as described above.

Other Service Providers

IMST Distributors, LLC (the "Distributor") is the Trust's principal underwriter and acts as the Trust's distributor in connection with the offering of Fund shares. The Distributor may enter into agreements with banks, broker-dealers, or other financial intermediaries through which investors may purchase or redeem shares. The Distributor is not affiliated with the Trust, the Advisor, the Sub-Advisor or any other service provider for the Fund.

Fund Expenses

The Fund is responsible for its own operating expenses (all of which will be borne directly or indirectly by the Fund's shareholders), including among others, legal fees and expenses of counsel to the Fund and the Fund's independent trustees; insurance (including trustees' and officers' errors and omissions insurance); auditing and accounting expenses; taxes and governmental fees; listing fees; fees and expenses of the Fund's custodians, administrators, transfer agents, registrars and other service providers; expenses for portfolio pricing services by a pricing agent, if any; expenses in connection with the issuance and offering of shares; brokerage commissions and other costs of acquiring or disposing of any portfolio holding of the Fund; and any litigation expenses.

The Advisor and Sub-Advisor have contractually agreed to waive their fees and/or pay for operating expenses of the Fund to ensure that the total annual fund operating expenses (excluding, as applicable, any shareholder servicing plan fees, taxes, leverage interest, brokerage commissions, dividend or interest expenses on short sales, acquired fund fees and expenses as determined in accordance with Form N-1A, expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.74% and 1.49% of the average daily net assets of the Fund's Class A shares and Class I shares, respectively. The expense limitation agreement has been structured so that the Advisor is first required to waive an amount up to its entire management fee (0.35%) before the Sub-Advisor is required to waive its fee or pay for Fund operating expenses that exceed the amount of the Advisor's fee. This agreement is effective until July 31, 2018 and is subject thereafter to annual re-approval of the agreement by the Advisor, the Sub-Advisor, and the Trust's Board of Trustees. This agreement may be terminated before that date only with the consent of the Trust's Board of Trustees.

Any reduction in advisory fees or payment of the Fund's expenses made by the Advisor or the Sub-Advisor in a fiscal year may be reimbursed by the Fund for a period ending three full fiscal years after the date of reduction or payment

if the Advisor or Sub-Advisor so requests. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund's annual expense ratio to exceed the lesser of (a) the limitation on Fund expenses in effect at the time of the relevant reduction in advisory fees or payment of the Fund's expenses, or (b) the limitation on Fund expenses at the time of the reimbursement. However, the reimbursement amount may not exceed the total amount of fees waived and/or Fund expenses paid by the Advisor or Sub-Advisor and will not include any amounts previously reimbursed to the Advisor or Sub-Advisor by the Fund. Any such reimbursement is contingent upon the Board's subsequent review of the reimbursed amounts. The Fund must pay current ordinary operating expenses before the Advisor or Sub-Advisor is entitled to any reimbursement of fees and/or Fund expenses.

PURCHASE OF SHARES

General

This Prospectus offers two classes of shares of the Fund, designated as Class A shares and Class I shares.

- Class A shares generally incur sales loads at the time of purchase and are subject to annual distribution and shareholder service fees.
- Class I shares are not subject to any sales loads or an annual distribution fee.

By offering multiple classes of shares, the Fund permits each investor to choose the class of shares that is most beneficial given the type of investor, the amount to be invested and the length of time the investor expects to hold the shares. As described more fully below, each class of shares offers a distinct structure of sales loads, distribution/service fees and other features that are designed to address the needs of a variety of investors.

Before you invest, you should compare the features of each share class, so that you can choose the class that is right for you. When selecting a share class, you should consider the following:

- which share classes are available to you;
- how long you expect to own your shares;
- how much you intend to invest;
- total costs and expenses associated with a particular share class; and
- whether you qualify for any reduction or waiver of sales charges.

Class A shares are generally available to all investors; however, share class availability depends upon your financial intermediary's policies and procedures. Class I shares are subject to different eligibility requirements, fees and expenses, and have a different minimum investment requirement. For eligible investors, Class I shares may be more suitable than Class A shares. You should consult with your financial advisor for more information to determine which share class is most appropriate for your situation.

Each class of shares generally has the same rights, except for the differing sales loads, distribution fee, any related expenses associated with each class of shares, and the exclusive voting rights by each class with respect to any distribution plan or service plan for such class of shares. Please see the specific features available to each class of shares as discussed below.

To the extent allowed by applicable law, the Fund reserves the right to discontinue offering shares at any time or to cease operating entirely.

Class A Shares - Sales Charge Schedule

Class A shares of the Fund are sold at the offering price, which is net asset value per share ("NAV") plus an initial maximum sales charge that varies with the amounts you invest as follows:

Class A Shares—Sales Charge Schedule			
Your Investment	Front-End Sales Charge As a % Of Offering Price*	Front-End Sales Charge As a % Of Net Investment	Dealer Reallowance As a % Of Offering Price
Up to \$49,999	5.75%	6.10%	5.00%
\$50,000 - \$99,999	4.50%	4.71%	3.75%
\$100,000 - \$249,999	3.50%	3.63%	2.75%
\$250,000 - \$499,999	2.50%	2.56%	2.00%
\$500,000 - \$999,999	2.00%	2.04%	1.50%
\$1 million or more	None**	None**	None**

* The offering price includes the sales charge.

** There is no initial sales charge on purchases of Class A shares in an account or accounts with an accumulated value of \$1 million or more.

Because of rounding in the calculation of front-end sales charges, the actual front-end sales charge paid by an investor may be higher or lower than the percentages noted above. No sales charge is imposed on Class A shares received from reinvestment of dividends or capital gain distributions.

Class A Shares Purchase Programs

Eligible purchasers of Class A shares also may be entitled to reduced sales charges through the *Quantity Discounts* program offered by the Fund as discussed below. Eligible purchasers of Class A shares also may be entitled to waived sales charges as discussed below under *Net Asset Value Purchases*. The availability of certain sales charge waivers and discounts will depend on whether you purchase your shares directly from the Fund or through a financial intermediary. As described in Appendix A to this Prospectus, financial intermediaries may have different policies and procedures regarding the availability of front-end sales load waivers. In all instances, it is the purchaser's responsibility to notify the Fund or the purchaser's financial intermediary at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge waivers or discounts. **For waivers and discounts not available through a particular intermediary, purchasers will have to purchase Fund shares directly from the Fund or through another intermediary to receive these waivers or discounts. Please see "Appendix A – Waivers and Discounts Available from Intermediaries" of the Prospectus for a description of waivers or discounts available through certain intermediaries.**

Quantity Discounts.

When purchasing Class A shares, if the dollar amount of your purchase reaches a specified level, known as a *breakpoint*, you are entitled to pay a discounted initial sales charge. For example, a purchase of up to \$49,999 of Class A shares of the Fund would pay an initial charge of 5.75%, while a purchase of \$50,000 would pay an initial charge of 4.50%. There are several breakpoints for the Fund, as shown in the **Class A Shares - Sales Charge Schedule** table above. The greater the investment, the greater the sales charge discount. Investments above \$1,000,000 have no front-end sales charge.

You may lower your Class A sales charges if:

- you assure the Fund in writing that you intend to invest at least \$50,000 in Class A shares of the Fund over the next 13 months in exchange for a reduced sales charge ("Letter of Intent") (see below); or
- the amount of Class A shares you already own in the Fund plus the amount you intend to invest in Class A shares is at least \$50,000 ("Cumulative Discount").

By signing a Letter of Intent you can purchase shares of the Fund at a lower sales charge level. Your individual purchases will be made at the applicable sales charge based on the amount you intend to invest over a 13-month period as stated in the Letter of Intent. Purchases resulting from the reinvestment of dividends and capital gains do not apply toward fulfillment of the Letter of Intent. Shares equal to 5.75% of the amount stated in the Letter of Intent

will be held in escrow during the 13-month period. If, at the end of the period, the total net amount invested is less than the amount stated in the Letter of Intent, you will be required to pay the difference between the reduced sales charge and the sales charge applicable to the individual net amount invested had the Letter of Intent not been in effect. This amount will be obtained from redemption of the escrow shares. Any remaining escrowed shares after payment to the Fund of the difference in applicable sales charges will be released to you. If you establish a Letter of Intent with the Fund you can aggregate your accounts as well as the accounts of your immediate family members. You will need to provide written instructions with respect to the other accounts whose purchases should be considered in fulfillment of the Letter of Intent.

The Letter of Intent and Cumulative Discount are intended to let you combine investments made at other times for purposes of calculating your present sales charge. Any time you can use any of these quantity discounts to “move” your investment into a lower sales charge level, it is generally beneficial for you to do so.

For purposes of determining whether you are eligible for a reduced Class A sales charge, you and your immediate family members (i.e., your spouse or domestic partner and your children or stepchildren age 21 or younger) may aggregate your investments in the Fund. This includes, for example, investments held in a retirement account, an employee benefit plan, or through a financial advisor other than the one handling your current purchase. These combined investments will be valued at their current offering price to determine whether your current investment amount qualifies for a reduced sales charge.

You must notify the Fund or an approved financial intermediary at the time of purchase whenever a quantity discount is applicable to purchases and may be required to provide the Fund, or an approved financial intermediary, with certain information or records to verify eligibility for a quantity discount. Such information or records may include account statements or other records regarding the shares of the Fund held in all accounts (e.g., retirement accounts) by the investor and other eligible persons, as described above, which may include accounts held at the Fund or at other approved financial intermediaries. Upon such notification, an investor will pay the sales charge at the lowest applicable sales charge level. You should retain any records necessary to substantiate the purchase price of the Fund’s shares, as the Fund and approved financial intermediary may not retain this information.

Information about sales charges can be found on the Fund’s website www.palmersquarecap.com or you can consult with your financial representative.

Net Asset Value Purchases.

Class A shares are available for purchase without a sales charge when you are:

- reinvesting dividends or distributions;
- participating in an investment advisory or agency commission program under which you pay a fee to an investment advisor or other firm for portfolio management or brokerage services;
- a financial intermediary purchasing on behalf of its clients that: (i) is compensated by clients on a fee-only basis, including but not limited to investment advisors, financial planners, and bank trust departments; or (ii) has entered into an agreement with the Fund to offer Class A shares through a no-load network or platform, may buy without a sales charge on behalf of your clients (please see Appendix A for a list of financial intermediaries that have these arrangements);
- a current trustee of the Trust;
- an employee (including the employee’s spouse, domestic partner, children, grandchildren, parents, grandparents, siblings and any dependent of the employee, as defined in Section 152 of the Internal Revenue Code) of the Advisor, of service providers to the Fund, or of a broker-dealer authorized to sell shares of the Fund;
- an employee-sponsored retirement plan;

- another fund or account for which Palmer Square or any of its affiliates serves as investment advisor or manager;
- an insurance company separate account; or
- have been issued shares in plans or a reorganization to which the Fund is a party.

Your financial advisor or the Fund's transfer agent (the "Transfer Agent") can answer your questions and help you determine if you are eligible.

Class I Shares

To purchase Class I shares of the Fund, you generally must invest at least \$1,000,000. Class I shares are not subject to any initial sales charge. There also is no contingent deferred sales charge imposed on redemptions of Class I shares, and you do not pay any ongoing distribution fees.

Class I shares are available for purchase by clients of financial intermediaries who charge such clients an ongoing fee for advisory, investment, consulting or similar services. Such clients may include individuals, corporations, endowments and foundations.

Distribution Plan

The Trust has adopted a plan on behalf of the Fund pursuant to Rule 12b-1 under the 1940 Act (the "Plan") which allows the Fund to pay distribution fees for the sale and distribution of its Class A shares. The Plan provides for the payment of a distribution fee at the annual rate of 0.25% of the average daily net assets attributable to Class A shares. Since these fees are paid out of the Fund's assets attributable to Class A shares, the fee will increase the cost of your investment and, over time, may cost you more than paying other types of sales charges. The net income attributable to the Fund's Class A shares will be reduced by the amount of distribution and service fees and other expenses of the Fund associated with that class of shares.

To assist investors in comparing classes of shares, the table under the Prospectus heading "Fees and Expenses of the Fund" provides a summary of sales charges and expenses and an example of the sales charges and expenses of the Fund applicable to each class of shares offered in this Prospectus.

Class I shares are not subject to any distribution fees under the Plan.

Shareholder Service Fee

The Fund may pay a fee at an annual rate of up to 0.25% of its average daily net assets attributable to Class A and Class I shares to shareholder servicing agents. Shareholder servicing agents provide non-distribution administrative and support services to their customers, which may include establishing and maintaining accounts and records relating to shareholders, processing dividend and distribution payments from the Fund on behalf of shareholders, forwarding communications from the Fund, providing sub-accounting with respect to Fund shares, and other similar services.

Additional Share Purchase Programs

Listed below are some of the shareholder services the Fund offers to investors. For a more complete description of the Fund's shareholder services, such as investment accounts, retirement plans, automated clearing house deposits, dividend diversification and the systematic withdrawal plan, please contact your authorized dealer.

Purchases by Telephone. Investors may purchase additional shares by calling 1-866-933-9033. If elected on your account application, telephone orders will be accepted via electronic funds transfer from your bank account through the Automated Clearing House ("ACH") network. You must have banking information established on your account prior to making a purchase. Your shares will be purchased at the public offering price (the NAV next calculated after receipt of your purchase order plus any applicable sales charge).

Dividend Reinvestment. You may reinvest dividends and capital gains distributions in shares of the Fund. Such shares are acquired at NAV (without a sales charge) on the applicable payable date of the dividend or capital gain distribution. Unless you instruct otherwise, dividends and distributions on Fund shares are automatically reinvested in shares of the same class of the Fund paying the dividend or distribution. This instruction may be made by writing to the Transfer Agent or by telephone by calling 1-866-933-9033. You may, on the account application form or prior to any declaration, instruct that dividends and/or capital gain distributions be paid in cash or be reinvested in the Fund at the next determined NAV. If you elect to receive dividends and/or capital gain distributions in cash and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months or more, the Fund reserves the right to reinvest the distribution check in your account at the Fund's current NAV and to reinvest all subsequent distributions.

Availability of Information

Information regarding sales charges of the Fund and the applicability and availability of discounts from sales charges is available free of charge on the Fund's website at www.palmersquarefunds.com. The Prospectus and SAI are also available on the website.

Prospectus and Shareholder Report Mailings

In order to reduce the amount of mail you receive and to help reduce expenses, we generally send a single copy of any shareholder report and Prospectus to each household. If you do not want the mailing of these documents to be combined with those of other members of your household, please contact your authorized dealer or the Transfer Agent.

YOUR ACCOUNT WITH THE FUND

Share Price

The offering price of each class of the Fund's shares is the NAV of that class (plus any sales charges, as applicable). The difference among the classes' NAVs reflects the daily expense accruals of the distribution fees applicable to Class A Shares and Class I Shares. The Fund's NAVs are calculated as of 4:00 p.m. Eastern Time, the normal close of regular trading on the NYSE, on each day the NYSE is open for trading. If for example, the NYSE closes at 1:00 p.m. New York time, the Fund's NAVs would still be determined as of 4:00 p.m. New York time. In this example, portfolio securities traded on the NYSE would be valued at their closing prices unless the Trust's Valuation Committee determines that a "fair value" adjustment is appropriate due to subsequent events. The NAV for each class is determined by dividing the value of the Fund's portfolio securities, cash and other assets (including accrued interest) allocable to such class, less all liabilities (including accrued expenses) allocable to such class, by the total number of outstanding shares of such class. The Fund's NAVs may be calculated earlier if trading on the NYSE is restricted or if permitted by the SEC. The NYSE is closed on weekends and most U.S. national holidays. However, foreign securities listed primarily on non-U.S. markets may trade on weekends or other days on which the Fund does not value its shares, which may significantly affect the Fund's NAVs on days when you are not able to buy or sell Fund shares.

The Fund's securities generally are valued at market price. Securities are valued at fair value when market quotations are not readily available. In certain circumstances, the Fund employs fair value pricing to ensure greater accuracy in determining daily NAVs and to prevent dilution by frequent traders or market timers who seek to exploit temporary market anomalies. The Board has adopted procedures to be followed when the Fund must utilize fair value pricing, including when reliable market quotations are not readily available, when the Fund's pricing service does not provide a valuation (or provides a valuation that, in the judgment of the Advisor, does not represent the security's fair value), or when, in the judgment of the Advisor, events have rendered the market value unreliable (see, for example, the discussion of fair value pricing of foreign securities in the paragraph below). Valuing securities at fair value involves reliance on the judgment of the Board (or a committee thereof), and may result in a different price being used in the calculation of the Fund's NAVs from quoted or published prices for the same securities. Fair value determinations are made in good faith in accordance with procedures adopted by the Board. There can be no assurance that the Fund will obtain the fair value assigned to a security if it sells the security.

Fair value pricing may be applied to foreign securities held by the Fund upon the occurrence of an event after the close of trading on non-U.S. markets but before the close of trading on the NYSE when the Fund's NAVs are determined. If the event may result in a material adjustment to the price of the Fund's foreign securities once non-U.S. markets open on the following business day (such as, for example, a significant surge or decline in the U.S. market), the Fund may value such foreign securities at fair value, taking into account the effect of such event, in order to calculate the Fund's NAVs. Other types of portfolio securities that the Fund may fair value include, but are not limited to: (1) investments that are illiquid or traded infrequently, including "restricted" securities and private placements for which there is no public market; (2) investments for which, in the judgment of the Advisor, the market price is stale; (3) securities of an issuer that has entered into a restructuring; (4) securities for which trading has been halted or suspended; and (5) fixed income securities for which there is no current market value quotation.

Buying Shares

The Fund's shares are offered on a continuous basis through the Distributor, as principal underwriter, located at Three Canal Plaza, Suite 100, Portland, Maine 04101. Shares also may be purchased through members of the Financial Industry Regulatory Authority ("FINRA") who are acting as securities dealers ("dealers") and FINRA members or eligible non-FINRA members who are acting as brokers or agents for investors ("brokers"). Dealers and brokers are sometimes referred to herein as authorized dealers.

To purchase shares of the Fund, you must invest at least the minimum amount indicated in the following table.

Minimum Investments	To Open Your Account	To Add to Your Account
Class A Shares		
Direct Regular Accounts	\$2,500	\$100
Direct Retirement Accounts	\$2,500	\$100
Automatic Investment Plan	\$2,500	\$100
Gift Account For Minors	\$2,500	\$100
Class I Shares		
All Accounts	\$1,000,000	\$5,000

Shares of the Fund may be purchased by check, by wire transfer of funds via a bank or through an approved financial intermediary (*i.e.*, a supermarket, investment advisor, financial planner or consultant, broker, dealer or other investment professional and their agents) authorized by the Fund to receive purchase orders. Financial intermediaries may provide varying arrangements for their clients to purchase and redeem shares, which may include different sales charges as described in this Prospectus, additional fees and different investment minimums. In addition, from time to time, a financial intermediary may modify or waive the initial and subsequent investment minimums. Your financial intermediary may receive different compensation for selling Class A shares. Please see "Class A Shares – Sales Charge Schedule" on page 17, and "Appendix A – Waivers and Discounts Available from Intermediaries." The share classes your financial intermediary sells may depend on, among other things, the type of investor account and the policies, procedures and practices adopted by your financial intermediary. You should review these arrangements with your financial intermediary. When purchasing shares of the Fund, investors must specify whether the purchase is for Class A or Class I shares.

You may make an initial investment in an amount greater than the minimum amounts shown in the preceding table and the Fund may, from time to time, reduce or waive the minimum initial investment amounts. The minimum initial investment amount is automatically waived for Fund shares purchased by Trustees of the Trust and current or retired directors and employees of the Advisor and its affiliates.

To the extent allowed by applicable law, the Fund reserves the right to discontinue offering shares at any time or to cease operating entirely.

In-Kind Purchases and Redemptions

The Fund reserves the right to accept payment for shares in the form of securities that are permissible investments for the Fund. The Fund also reserves the right to pay redemptions by an “in-kind” distribution of portfolio securities (instead of cash) from the Fund. In-kind purchases and redemptions are taxable events and may result in the recognition of gain or loss for federal income tax purposes. See the SAI for further information about the terms of these purchases and redemptions.

Additional Investments

Additional subscriptions in the Fund generally may be made by investing at least the minimum amount shown in the table above. Exceptions may be made at the Fund’s discretion. You may purchase additional shares of the Fund by sending a check together with the investment stub from your most recent account statement to the Fund at the applicable address listed in the table below. Please ensure that you include your account number on the check. If you do not have the investment stub from your account statement, list your name, address and account number on a separate sheet of paper and include it with your check. You may also make additional investments in the Fund by wire transfer of funds or through an approved financial intermediary. The minimum additional investment amount is automatically waived for shares purchased by Trustees of the Trust and current or retired directors and employees of the Advisor and its affiliates. Please follow the procedures described in this Prospectus.

Automatic Investment Plan

If you intend to use the Automatic Investment Plan (“AIP”), you may open your account with the initial minimum investment amount. Once an account has been opened, you may make additional investments in the Fund at regular intervals through the AIP. If elected on your account application, funds can be automatically transferred from your checking or savings account on the 5th, 10th, 15th, 20th or 25th of each month. In order to participate in the AIP, each additional subscription must be at least \$50, and your financial institution must be a member of the ACH network. The first AIP purchase will be made 15 days after the Fund’s Transfer Agent receives your request in good order. The Transfer Agent will charge a \$25 fee for any ACH payment that is rejected by your bank. Your AIP will be terminated if two successive mailings we send to you are returned by the U.S. Postal Service as undeliverable. You may terminate your participation in the AIP at any time by notifying the Transfer Agent at 1-866-933-9033 at least five days prior to the date of the next AIP transfer. The Fund may modify or terminate the AIP at any time without notice.

Customer Identification Information

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. When you open an account, you will be asked for your name, date of birth (for a natural person), your residential address or principal place of business, and mailing address (if different) as well as your Social Security Number or Taxpayer Identification Number. Additional information is required for corporations, partnerships and other entities. Applications without such information will not be considered in good order. The Fund reserves the right to deny any application if the application is not in good order.

This Prospectus should not be considered a solicitation to purchase or as an offer to sell shares of the Fund in any jurisdiction where it would be unlawful to do so under the laws of that jurisdiction. Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

Timing and Nature of Requests

The purchase price you will pay for the Fund’s shares will be the next NAV (plus any sales charge, if applicable) calculated after the Transfer Agent or your authorized financial intermediary receives your request in good order. “Good order” means that your purchase request includes: (1) the name of the Fund, (2) the dollar amount of shares to be purchased, (3) your purchase application or investment stub, and (4) a check payable to **Palmer Square SSI Alternative Income Fund**. All requests received in good order before 4:00 p.m. (Eastern Time) on any business day will be processed on that same day. Requests received in good order at or after 4:00 p.m. (Eastern Time) or on a day when the Fund does not value its shares will be transacted at the next business day’s NAV (plus sales charge, if

applicable). If you purchase shares through a financial intermediary, it may have an earlier deadline for purchase and sale requests. All purchases must be made in U.S. Dollars and drawn on U.S. financial institutions.

Methods of Buying

Through a broker-dealer or other financial intermediary

The Fund is offered through certain approved financial intermediaries (and their agents). The Fund is also offered directly. A purchase order placed with a financial intermediary or its authorized agent is treated as if such order were placed directly with the Fund, and will be deemed to have been received by the Fund when the financial intermediary or its authorized agent receives the order and executed at the next NAV (plus any sales charge, as applicable) calculated by the Fund. Your financial intermediary will hold your shares in a pooled account in its (or its agent's) name. The Fund may pay your financial intermediary (or its agent) to maintain your individual ownership information, maintain required records, and provide other shareholder services. A financial intermediary which offers shares may require payment of fees from its individual clients in addition to those described in this Prospectus. For example, the financial intermediary may charge transaction fees or set different minimum investments. Your financial intermediary is responsible for processing your order correctly and promptly, keeping you advised of the status of your account, confirming your transactions and ensuring that you receive copies of the Fund's Prospectus. Please contact your financial intermediary to determine whether it is an approved financial intermediary of the Fund or for additional information.

By mail

The Fund will not accept payment in cash, including cashier's checks. Also, to prevent check fraud, the Fund will not accept third-party checks, Treasury checks, credit card checks, traveler's checks, money orders or starter checks for the purchase of shares. All purchases must be made in U.S. Dollars and drawn on U.S. financial institutions.

To buy shares directly from the Fund by mail, complete an account application and send it together with your check for the amount you wish to invest to the Fund at the address indicated below. To make additional investments once you have opened your account, write your account number on the check and send it to the Fund together with the most recent confirmation statement received from the Transfer Agent. If your check is returned for insufficient funds, your purchase will be canceled and a \$25 fee will be assessed against your account by the Transfer Agent.

Regular Mail
Palmer Square Funds
P.O. Box 2175
Milwaukee, Wisconsin 53201

Overnight Delivery
Palmer Square Funds
235 W. Galena Street
Milwaukee, Wisconsin 53212

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents.

By telephone

To make additional investments by telephone, you must authorize telephone purchases and complete the Bank Information section on your account application. If you have given authorization for telephone transactions, completed the Bank Information section and your account has been open for at least 15 days, call the Transfer Agent toll-free at 1-866-933-9033 and you will be allowed to move money in amounts of at least \$100 from your bank account to the Fund's account upon request. Only bank accounts held at U.S. institutions that are ACH members may be used for telephone transactions. If your order is placed before 4:00 p.m. (Eastern Time) on a business day shares will be purchased in your account at the NAV (plus any sales charge, as applicable) calculated on that day. Orders received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day's NAV. For security reasons, requests by telephone will be recorded.

By wire

To open an account by wire, a completed account application form must be received by the Fund before your wire can be accepted. You may mail or send by overnight delivery your account application form to the Transfer Agent. Upon receipt of your completed account application form, an account will be established for you. The account number assigned to you will be required as part of the wiring instruction that should be provided to your bank to send the wire. Your bank must include the name of the Fund, the account number, and your name so that monies can be correctly applied. Your bank should transmit monies by wire to:

UMB Bank, n.a.
ABA Number 101000695
For credit to Palmer Square Funds
A/C # 9871917185

For further credit to:
“Palmer Square [Fund Name and Share Class]”
Your account number
Name(s) of investor(s)
Social Security Number or Taxpayer Identification Number

Before sending your wire, please contact the Transfer Agent at 1-866-933-9033 to notify it of your intention to wire funds. This will ensure prompt and accurate credit upon receipt of your wire. Your bank may charge a fee for its wiring service.

Wired funds must be received prior to 4:00 p.m. (Eastern Time) on a business day to be eligible for same-day pricing. **The Fund and UMB Bank, n.a. are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.**

Selling (Redeeming) Fund Shares

Through a broker-dealer or other financial intermediary

If you purchased your shares through an approved financial intermediary, your redemption order must be placed through the same financial intermediary. The Fund will be deemed to have received a redemption order when a financial intermediary (or its authorized agent) receives the order. The financial intermediary must receive your redemption order prior to 4:00 p.m. (Eastern Time) on a business day for the redemption to be processed at the current day's NAV. Orders received at or after 4:00 p.m. (Eastern Time) on a business day or on a day when the Fund does not value its shares will be transacted at the next business day's NAV. Please keep in mind that your financial intermediary may charge additional fees for its services. In the event your approved financial intermediary is no longer available or in operation, you may place your redemption order directly with the Fund as described below.

By mail

You may redeem shares purchased directly from the Fund by mail. Send your written redemption request to **Palmer Square Funds** at the address indicated below. Your request must be in good order and contain the Fund name, the name(s) on the account, your account number and the dollar amount or the number of shares to be redeemed. The redemption request must be signed by all shareholders listed on the account. Additional documents are required for certain types of shareholders, such as corporations, partnerships, executors, trustees, administrators, or guardians (*i.e.*, corporate resolutions dated within 60 days, or trust documents indicating proper authorization).

Regular Mail
Palmer Square Funds
P.O. Box 2175
Milwaukee, Wisconsin 53201

Overnight Delivery
Palmer Square Funds
235 W. Galena Street
Milwaukee, Wisconsin 53212

A Medallion signature guarantee must be included if any of the following situations apply:

- You wish to redeem more than \$50,000 worth of shares;
- When redemption proceeds are sent to any person, address or bank account not on record;
- If a change of address was received by the Transfer Agent within the last 15 days;
- If ownership is changed on your account; or
- When establishing or modifying certain services on your account.

By telephone

To redeem shares by telephone, call the Fund at 1-866-933-9033 and specify the amount of money you wish to redeem. You may have a check sent to the address of record, or, if previously established on your account, you may have proceeds sent by wire or electronic funds transfer through the ACH network directly to your bank account. Wire transfers are subject to a \$20 fee paid by the shareholder and your bank may charge a fee to receive wired funds. Checks sent via overnight delivery are subject to a \$25 charge. You do not incur any charge when proceeds are sent via the ACH network; however, credit may not be available for two to three business days.

If you are authorized to perform telephone transactions (either through your account application form or by subsequent arrangement in writing with the Fund), you may redeem shares worth up to \$50,000 by instructing the Fund by phone at 1-866-933-9033. Unless noted on the initial account application, a Medallion signature guarantee is required of all shareholders in order to qualify for or to change telephone redemption privileges.

Note: The Fund and all of its service providers will not be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine. To confirm that all telephone instructions are genuine, the caller must verify the following:

- The Fund account number;
- The name in which his or her account is registered;
- The Social Security Number or Taxpayer Identification Number under which the account is registered; and
- The address of the account holder, as stated in the account application form.

Medallion Signature Guarantee

In addition to the situations described above, the Fund reserves the right to require a Medallion signature guarantee in other instances based on the circumstances relative to the particular situation.

Shareholders redeeming more than \$50,000 worth of shares by mail should submit written instructions with a Medallion signature guarantee from an eligible institution acceptable to the Transfer Agent, such as a domestic bank or trust company, broker, dealer, clearing agency or savings association, or from any participant in a Medallion program recognized by the Securities Transfer Association. The three currently recognized Medallion programs are Securities Transfer Agents Medallion Program, Stock Exchanges Medallion Program and New York Stock Exchange, Inc. Medallion Signature Program. Signature guarantees that are not part of these programs will not be accepted. Participants in Medallion programs are subject to dollar limitations which must be considered when requesting their guarantee. The Transfer Agent may reject any signature guarantee if it believes the transaction would otherwise be improper. A notary public cannot provide a signature guarantee.

Systematic Withdrawal Plan

You may request that a predetermined dollar amount be sent to you on a monthly or quarterly basis. Your account must maintain a value of at least \$10,000 for you to be eligible to participate in the Systematic Withdrawal Plan (“SWP”). The minimum withdrawal amount is \$100. If you elect to receive redemptions through the SWP, the Fund will send a check to your address of record, or will send the payment via electronic funds transfer through the ACH network, directly to your bank account on record. You may request an application for the SWP by calling the Transfer Agent toll-free at 1-866-933-9033. The Fund may modify or terminate the SWP at any time. You may terminate your participation in the SWP by calling the Transfer Agent at least five business days before the next withdrawal.

Payment of Redemption Proceeds

You may redeem shares of the Fund at a price equal to the NAV next determined after the Transfer Agent and/or authorized agent receives your redemption request in good order. Generally, your redemption request cannot be processed on days the NYSE is closed. All redemption proceeds for requests received in good order by the Transfer Agent and/or authorized agent at or before the close of the regular trading session of the NYSE (generally, 4:00 p.m. Eastern Time) will usually be sent to the address of record or the bank you indicate or wired using the wire instructions on record on the following business day. Payment of redemption proceeds may take longer than typically expected, but will be sent within seven calendar days after the Fund receives your redemption request except as specified below.

If you purchase shares using a check and request a redemption before the check has cleared, the Fund may postpone payment of your redemption proceeds up to 15 calendar days while the Fund waits for the check to clear. Furthermore, the Fund may suspend the right to redeem shares or postpone the date of payment upon redemption for more than seven calendar days: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists affecting the sale of the Fund's securities or making such sale or the fair determination of the value of the Fund's net assets not reasonably practicable; or (3) for such other periods as the SEC may permit for the protection of the Fund's shareholders.

Other Redemption Information

Shareholders who hold shares of the Fund through an IRA or other retirement plan, must indicate on their redemption requests whether to withhold federal income tax. Redemption requests failing to indicate an election not to have taxes withheld will generally be subject to a 10% federal income tax withholding. In addition, if you are a resident of certain states, state income tax also applies to non-Roth IRA distributions when federal withholding applies. Please consult with your tax professional.

The Fund generally pays sale (redemption) proceeds in cash. The Fund typically expects to satisfy redemption requests by selling portfolio assets or by using holdings of cash or cash equivalents. The Fund uses these methods during both normal and stressed market conditions. During conditions that make the payment of cash unwise and/or in order to protect the interests of the Fund's remaining shareholders, the Fund may pay all or part of a shareholder's redemption proceeds in portfolio securities with a market value equal to the redemption price (redemption-in-kind) in lieu of cash. The Fund may redeem shares in kind during both normal and stressed market conditions. If the Fund redeems your shares in kind, you will bear any market risks associated with investment in these securities, and you will be responsible for the costs (including brokerage charges) of converting the securities to cash.

The Fund may redeem all of the shares held in your account if your balance falls below the Fund's minimum initial investment amount due to your redemption activity. In these circumstances, the Fund will notify you in writing and request that you increase your balance above the minimum initial investment amount within 30 days of the date of the notice. If, within 30 days of the Fund's written request, you have not increased your account balance, your shares will be automatically redeemed at the current NAV. The Fund will not require that your shares be redeemed if the value of your account drops below the investment minimum due to fluctuations of the Fund's NAV.

Cost Basis Information

Federal tax law requires that regulated investment companies, such as the Fund, report their shareholders' cost basis, gain/ loss, and holding period to the IRS on the shareholders' Consolidated Form 1099s when "covered" shares of the regulated investment companies are sold. Covered shares are any shares acquired (including pursuant to a dividend reinvestment plan) on or after January 1, 2012.

The Fund has chosen "first-in, first-out" as its standing (default) tax lot identification method for all shareholders, which means this is the method the Fund will use to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Fund's standing tax lot identification method is the method it will use to report the sale of covered shares on your Consolidated Form 1099 if you do not select a specific tax lot identification method. Redemptions are taxable

and you may realize a gain or a loss upon the sale of your shares. Certain shareholders may be subject to backup withholding.

Subject to certain limitations, you may choose a method other than the Fund's standing method at the time of your purchase or upon the sale of covered shares. Please refer to the appropriate Treasury regulations or consult your tax advisor with regard to your personal circumstances.

Tools to Combat Frequent Transactions

The Trust's Board of Trustees has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares by Fund shareholders. The Trust discourages excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm the Fund's performance. The Trust takes steps to reduce the frequency and effect of these activities in the Fund. These steps may include monitoring trading activity and using fair value pricing. In addition, the Trust may take action, which may include using its best efforts to restrict a shareholder's trading privileges in the Fund, if that shareholder has engaged in four or more "round trips" in the Fund during a 12-month period. Although these efforts (which are described in more detail below) are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity may occur. Further, while the Trust makes efforts to identify and restrict frequent trading, the Trust receives purchase and sale orders through financial intermediaries and cannot always know or detect frequent trading that may be facilitated by the use of intermediaries or the use of group or omnibus accounts by those intermediaries. The Trust seeks to exercise its judgment in implementing these tools to the best of its ability in a manner that the Trust believes is consistent with the interests of Fund shareholders.

Monitoring Trading Practices The Trust may monitor trades in Fund shares in an effort to detect short-term trading activities. If, as a result of this monitoring, the Trust believes that a shareholder of the Fund has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder's accounts. In making such judgments, the Trust seeks to act in a manner that it believes is consistent with the best interest of Fund shareholders. Due to the complexity and subjectivity involved in identifying abusive trading activity, there can be no assurance that the Trust's efforts will identify all trades or trading practices that may be considered abusive.

General Transaction Policies

Some of the following policies are mentioned above. In general, the Fund reserves the right to:

- vary or waive any minimum investment requirement;
- refuse, change, discontinue, or temporarily suspend account services, including purchase or telephone redemption privileges (if redemption by telephone is not available, you may send your redemption order to the Fund via regular or overnight delivery), for any reason;
- reject any purchase request for any reason (generally, the Fund does this if the purchase is disruptive to the efficient management of the Fund due to the timing of the investment or an investor's history of excessive trading);
- delay paying redemption proceeds for up to seven calendar days after receiving a request, if an earlier payment could adversely affect the Fund;
- reject any purchase or redemption request that does not contain all required documentation; and
- subject to applicable law and with prior notice, adopt other policies from time to time requiring mandatory redemption of shares in certain circumstances.

If you elect telephone privileges on the account application or in a letter to the Fund, you may be responsible for any fraudulent telephone orders as long as the Fund and/or its service providers have taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified.

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Fund by telephone, you may also mail your request to the Fund at the address listed under “Methods of Buying.”

Your broker or other financial intermediary may establish policies that differ from those of the Fund. For example, the organization may charge transaction fees, set higher minimum investments, or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Contact your broker or other financial intermediary for details.

Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

SERVICE FEES – OTHER PAYMENTS TO THIRD PARTIES

The Fund or the Advisor may pay service fees to intermediaries such as banks, broker-dealers, financial advisors or other financial institutions some of which may be affiliate for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus accounts, other group accounts or accounts traded through registered securities clearing agents.

The Advisor, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to intermediaries that sell shares of the Fund. These additional cash payments are generally made to intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the intermediary. The Advisor may pay cash compensation for inclusion of the Fund on a sales list, including a preferred or select sales list, in other sales programs or may pay an expense reimbursement in cases where the intermediary provides shareholder services to the Fund’s shareholders. The Advisor may also pay cash compensation in the form of finder’s fees that vary depending on the Fund and the dollar amount of the shares sold.

Additional Information

The Fund enters into contractual arrangements with various parties, including among others the Advisor and Sub-Advisor, who provide services to the Fund. Shareholders are not parties to, or intended (or “third party”) beneficiaries of, those contractual arrangements.

The Prospectus and the SAI provide information concerning the Fund that you should consider in determining whether to purchase shares of the Fund. The Fund may make changes to this information from time to time. Neither this prospectus nor the SAI is intended to give rise to any contract rights or other rights in any shareholder, other than any rights conferred by federal or state securities laws that may not be waived.

DIVIDENDS AND DISTRIBUTIONS

The Fund will make distributions of net investment income semi-annually and net capital gains, if any, at least annually, typically in December. The Fund may make additional payments of dividends or distributions if it deems it desirable at any other time during the year.

The per share distributions on Class A shares may be lower than the per share distributions on Class I shares as a result of the higher distribution/service fees applicable to Class A shares.

All dividends and distributions will be reinvested in Fund shares unless you choose one of the following options: (1) to receive net investment income dividends in cash, while reinvesting capital gain distributions in additional Fund shares; or (2) to receive all dividends and distributions in cash. If you wish to change your distribution option, please write to the Transfer Agent before the payment date of the distribution.

If you elect to receive distributions in cash and the U.S. Postal Service cannot deliver your check, or if your distribution check has not been cashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund's then current NAV and to reinvest all subsequent distributions.

FEDERAL INCOME TAX CONSEQUENCES

The following discussion is very general and does not address investors subject to special rules, such as investors who hold Fund shares through an IRA, 401(k) plan or other tax-advantaged account. The SAI contains further information about taxes. Because each shareholder's circumstances are different and special tax rules may apply, you should consult your tax advisor about your investment in the Fund.

You will generally have to pay federal income taxes, as well as any state or local taxes, on distributions received from the Fund, whether paid in cash or reinvested in additional shares. If you sell Fund shares, it is generally considered a taxable event. If you exchange shares of the Fund for shares of another fund, the exchange will be treated as a sale of the Fund's shares and any gain on the transaction may be subject to federal income tax.

Distributions of net investment income, other than "qualified dividend income," and distributions of net short-term capital gains, are taxable for federal income tax purposes at ordinary income tax rates. Distributions from the Fund's net capital gain (i.e., the excess of its net long-term capital gain over its net short-term capital loss) are taxable for federal income tax purposes as long-term capital gain, regardless of how long the shareholder has held Fund shares.

Dividends paid by the Fund (but none of the Fund's capital gain distributions) may qualify in part for the dividends-received deduction available to corporate shareholders, provided certain holding period and other requirements are satisfied. Distributions of investment income that the Fund reports as "qualified dividend income" may be eligible to be taxed to non-corporate shareholders at the reduced rates applicable to long-term capital gain if derived from the Fund's qualified dividend income and if certain other requirements are satisfied. "Qualified dividend income" generally is income derived from dividends paid by U.S. corporations or certain foreign corporations that are either incorporated in a U.S. possession or eligible for tax benefits under certain U.S. income tax treaties. In addition, dividends that the Fund receives in respect of stock of certain foreign corporations may be qualified dividend income if that stock is readily tradable on an established U.S. securities market.

You may want to avoid buying shares of the Fund just before it declares a distribution (on or before the record date), because such a distribution will be taxable to you even though it may effectively be a return of a portion of your investment.

Although distributions are generally taxable when received, dividends declared in October, November or December to shareholders of record as of a date in such month and paid during the following January are treated as if received on December 31 of the calendar year when the dividends were declared.

Information on the federal income tax status of dividends and distributions is provided annually.

Dividends and distributions from the Fund and net gain from redemptions of Fund shares will generally be taken into account in determining a shareholder's "net investment income" for purposes of the Medicare contribution tax applicable to certain individuals, estates and trusts.

If you do not provide the Fund with your correct taxpayer identification number and any required certifications, you will be subject to backup withholding on your redemption proceeds, dividends and other distributions. The backup withholding rate is currently 28%.

Dividends and certain other payments made by the Fund to a non-U.S. shareholder are subject to such withholding of federal income tax at the rate of 30% (or such lower rate as may be determined in accordance with any applicable treaty). Dividends that are reported by the Fund as "interest-related dividends" or "short-term capital gain dividends" are generally exempt from such withholding. In general, the Fund may report interest-related dividends to the extent of its net income derived from U.S.-source interest and the Fund may report short-term capital gain dividends to the

extent its net short-term capital gain for the taxable year exceeds its net long-term capital loss. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax described in this paragraph.

Unless certain non-U.S. entities that hold shares comply with IRS requirements that will generally require them to report information regarding U.S. persons investing in, or holding accounts with, such entities, a 30% withholding tax may apply to distributions and, after December 31, 2018, to redemption proceeds and certain capital gain dividends payable to such entities. A non-U.S. shareholder may be exempt from the withholding described in this paragraph under an applicable intergovernmental agreement between the United States and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

Some of the Fund's investment income may be subject to foreign income taxes that are withheld at the country of origin. Tax treaties between certain countries and the United States may reduce or eliminate such taxes, but there can be no assurance that the Fund will qualify for treaty benefits.

FINANCIAL HIGHLIGHTS

The following table is intended to help you understand the Fund's financial performance. Certain information reflects financial results for a single Fund share. The total return figures represent the percentage that an investor in the Fund would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). The financial information for the periods shown has been audited by Tait, Weller & Baker LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the Fund's annual report, which is available upon request (see back cover).

APPENDIX A – WAIVERS AND DISCOUNTS AVAILABLE FROM INTERMEDIARIES

The availability of certain sales charge waivers and discounts will depend on whether you purchase your shares directly from the Fund or through a financial intermediary. Intermediaries may have different policies and procedures regarding the availability of front-end sales load waivers. In all instances, it is the purchaser's responsibility to notify the Fund or the purchaser's financial intermediary at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge waivers or discounts. **For waivers and discounts not available through a particular intermediary, shareholders will have to purchase Fund shares directly from the Fund or through another intermediary to receive these waivers or discounts.**

Waiver of Initial Sales Charge on Purchases of Class A Shares by Certain Financial Institutions:

No initial sales charge is imposed on purchases of Class A shares by the following financial institutions that (i) are compensated by clients on a fee-only basis, or (iii) have entered into an agreement with the Fund to offer Class A shares through no-load network or platforms as described in "Net Asset Value Purchases" beginning on page 19 of this Prospectus:

FOR MORE INFORMATION

Statement of Additional Information (SAI)

The SAI provides additional details about the investments and techniques of the Fund and certain other additional information. A current SAI is on file with the SEC and is incorporated into this Prospectus by reference. This means that the SAI is legally considered a part of this Prospectus even though it is not physically within this Prospectus.

Shareholder Reports

Additional information about the Fund's investments is available in the Fund's annual and semi-annual reports to shareholders. In the Fund's annual report, you will find a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during its most recent fiscal year.

The Fund's SAI is available and annual and semi-annual reports are available free of charge on the Fund's website at www.palmersquarefunds.com. You can obtain a free copy of the SAI or the Fund's annual and semi-annual reports, request other information, or inquire about the Fund by contacting a broker that sells the Fund or by calling the Fund (toll-free) at 1-866-933-9033 or by writing to:

Palmer Square SSI Alternative Income Fund
P.O. Box 2175
Milwaukee, Wisconsin 53201

Information about the Fund (including the SAI) can be reviewed and copied at the Public Reference Room of the SEC in Washington, DC. You can obtain information on the operation of the Public Reference Room by calling the SEC at 1-202-551-8090. Reports and other information about the Fund are also available:

- Free of charge, on the SEC's EDGAR Database on the SEC's Internet site at <http://www.sec.gov>;
- For a duplication fee, by writing to the SEC's Public Reference Section, Washington, DC 20549-1520; or
- For a duplication fee, by electronic request at the following e-mail address: publicinfo@sec.gov.
